4.2 Descriptive statistics of Scholastic Backwardness scores of u

4.3 Frequencies and percentages of primary students with respect to their level of Scholastic Backwardness.

4.4 Mean values and Standard Deviations (SDs) of Scholastic Backwardness scores of VIIth standard students with respect to their level of Science Process Skills (N =458).

4.5 Summary of Analysis of Variance (ANOVA) of Scholastic Backwardness scores of VIIth standard students with respect to their level of Science Process Skills.

4.6 Mean values and SDs of Scholastic Backwardness scores of VIth standard students with respect to their level of Science Process Skill (N = 361).

4.7 Summary of ANOVA of Scholastic Backwardness Score of VIth standard students with respect to their level of Science Process Skill.

4.8 Least Significant Difference (LSD) Test for pair-wise comparison of Scholastic Backwardness scores of VIth standard students with respect to their level of Science Process Skill.

4.9 Mean values and SDs of Scholastic Backwardness scores of Vth standard students with respect to their level of Science Process Skill (N=424).

4.10 Mean values and SDs of Scholastic Backwardness scores of Vth standard students with respect to their level of Science Process Skill (N=424).

4.11 Mean values and SDs of Scholastic Backwardness scores of VIIth standard students with respect to their level of Scientific Creativity (N = 458).

4.12 Summary of ANOVA of Scholastic Backwardness scores of VIIth standard students with respect to their level of Scientific Creativity.

4.13 Mean values and SDs of Scholastic Backwardness scores of VIth standard students with respect to their level of Scientific Creativity (N = 361).
4.14 Summary of ANOVA of Scholastic Backwardness scores of VI\textsuperscript{th} standard students with respect to their level of Scientific Creativity.

4.15 Mean values and SDs of Scholastic Backwardness scores of V\textsuperscript{th} standard students with respect to their level of Scientific Creativity (N = 424).

4.16 Summary of ANOVA of Scholastic Backwardness scores of V\textsuperscript{th} standard students with respect to their level of Scientific Creativity.

4.17 Mean values and SDs of Scholastic Backwardness scores of the total sample with respect to their level of Scientific Creativity (N = 1243).

4.18 Summary of ANOVA of Scholastic Backwardness scores of upper primary students with respect to their level of Scientific Creativity.

4.19 Mean values, SDs and t-value of Scholastic Backwardness scores of upper primary students with respect to gender.

4.20 Mean values, SDs and t-value of Scholastic Backwardness scores of upper primary students with respect to locality of the school.

4.21 Mean values, SDs and t-value of Scholastic Backwardness scores of upper primary students with respect to type of school.

4.22 Mean values and SDs of Scholastic Backwardness scores of upper primary students with respect to the occupation of father.

4.23 Summary of ANOVA of Scholastic Backwardness scores of upper primary students with respect to the occupation of father.

4.24 Mean values and SDs of Scholastic Backwardness scores of upper primary students with respect to income of father.

4.25 Summary of ANOVA of Scholastic Backwardness scores of upper primary students with respect to the income of father.

4.26 Mean values, SDs and t-value of Scholastic Backwardness scores of upper primary students with respect to intelligence.
4.27 Descriptive statistics of Science Process Skill scores of VII\textsuperscript{th} standard students with Scholastic Backwardness in Science (N=458).

4.28 Frequencies and percentages of Scholastically Backward students of VII\textsuperscript{th} standard with respect to their level of Science Process Skill in Science (N=458).

4.29 Descriptive statistics of Science Process Skill scores of VI\textsuperscript{th} standard students with Scholastic Backwardness in Science (N=361).

4.30 Frequencies and percentages of Scholastically Backward students of VI\textsuperscript{th} standard with respect to their level of Science Process Skill.

4.31 Descriptive statistics of Science Process Skill scores of V\textsuperscript{th} standard students with Scholastic Backwardness in Science (N=424).

4.32 Frequencies and percentages of V\textsuperscript{th} standard Scholastically Backward students with respect to their level of Science Process Skills.

4.33 Descriptive statistics of different Science Process Skills of VII\textsuperscript{th} standard students with Scholastic Backwardness in Science (N=458).

4.34 Descriptive statistics of different Science Process Skills of VI\textsuperscript{th} standard students with Scholastic Backwardness in Science (N=361).

4.35 Descriptive statistics of different Science Process Skills of V\textsuperscript{th} standard students with Scholastic Backwardness in Science (N=424).

4.36 Domain-wise Mean values, SDs and Percentages of mean values of Science Process Skill scores of VII\textsuperscript{th} standard Scholastically Backward students.

4.37 Summary of repeated ANOVA of domain wise Science Process Skill scores of VII\textsuperscript{th} standard Scholastically Backward students.
4.38 LSD Test for pair wise comparison of four different Science Process Skills of VIIth standard Scholastically Backward students.

4.39 Domain wise Mean values, SDs and percentages of mean of Science Process Skills scores of Scholastically Backward VIth standard students (N=361).

4.40 Domain wise Mean values, SDs and percentages of mean of Science Process Skill scores of Scholastically Backward Vth standard students (N=424).

4.41 Mean values, SDs and t –value of total Science Process Skill scores of upper primary students with respect to their level of Backwardness.

4.42 Mean values, SDs and t –value of total Science Process Skill scores of VIIth standard students with respect to their level of Scholastic Backwardness. (N=458).

4.43 Mean values, SDs and t –value of total Science Process Skill scores of VIth standard students with respect to their level of Scholastic Backwardness.

4.44 Mean values, SDs and t –value of total Science Process Skills Scores of Vth standard students with respect to their level of Scholastic Backwardness.

4.45 Mean values and SDs of Science Process Skill Scores of Scholastically Backward upper primary students with respect to their level of Scientific Creativity.

4.46 Summary of ANOVA of Science Process Skill scores of Scholastically Backward upper primary students with respect to their level of Scientific Creativity.

4.47 Mean values and SDs of Science Process Skill Scores of VIIth standard students with respect to their level of Scientific Creativity (N=458).

4.48 Summary of ANOVA of Science Process Skill scores of VIIth standard students with respect to their level of Scientific Creativity.
4.49 LSD test for pair wise comparison of Science Process Skill scores of VII\textsuperscript{th} standard students with respect to their level of Scientific Creativity.

4.50 Mean values and SDs of Science Process Skill scores of VI\textsuperscript{th} standard students with respect to their level of Scientific Creativity (\( N = 361 \)).

4.51 Summary of ANOVA of Science Process Skill scores of VI\textsuperscript{th} standard students with respect to their level of Scientific Creativity.

4.52 LSD test for pair wise comparison of Science Process Skill scores of VI\textsuperscript{th} standard students with respect to their level of Scientific Creativity.

4.53 Mean values and SDs of Science Process Skill scores of V\textsuperscript{th} standard students with respect to their level of Scientific Creativity (\( N = 424 \)).

4.54 Summary of ANOVA of Science Process Skill scores of V\textsuperscript{th} standard students with respect to their level of Scientific Creativity.

4.55 Mean values, SDs and \( t \) – value of total Science Process Skill scores of Scholastically Backward upper primary students with respect to gender (\( N = 1243 \)).

4.56 Mean values, SDs and \( t \) – value of total Science Process Skill scores of Scholastically Backward upper primary students with respect to the locality of the school.

4.57 Mean values, SDs and \( t \) – value of total Science Process Skill scores of Scholastically Backward upper primary students with respect to type of school.

4.58 Mean values and SDs of total Science Process Skill scores of Scholastically Backward upper primary students with respect to occupation of father.

4.59 Summary of ANOVA of Science Process Skills scores of Scholastically Backward upper primary students with respect to occupation of father.
4.60 LSD Test for pair wise comparison of Science Process Skill scores of Scholastically Backward upper primary students with respect to parental occupation.

4.61 Mean values and SDs of Science Process Skill scores of Scholastically Backward students with respect to income of father.

4.62 Summary of ANOVA of Science Process Skills scores of Scholastically Backward upper primary students with respect to the income of father.

4.63 LSD test for pair wise comparison of Science Process Skill scores of Scholastically backward upper primary students with respect to the income of father.

4.64 Mean values, SDs and t- value of Science Process Skill scores of Scholastically Backward upper primary students with respect to level of intelligence.

4.65 Descriptive statistics of Scientific Creativity scores of Scholastically Backward upper primary students ( N = 1243).

4.66 Frequencies and percentages of Scholastically Backward upper primary students with respect to their level of Scientific Creativity.

4.67 Descriptive statistics of Scientific Creativity scores of Scholastically Backward VII th standard students ( N = 458).

4.68 Frequencies and percentages of Scholastically Backward VII th standard students with respect to their level of Scientific Creativity ( N= 458).

4.69 Descriptive statistics of Scientific Creativity scores of VI th standard students (N = 361).

4.70 Frequencies and percentages of Scholastically Backward VI th standard students with respect to their level of Scientific Creativity .( N= 361).

4.71 Descriptive statistics of Scientific Creativity scores of V th standard students (N= 424).
4.72 Frequencies and percentages of Scholastically Backward V\textsuperscript{th} standard students with respect to their level of Scientific Creativity (N = 424).

4.73 Mean values, standard deviations and t- value of Scientific Creativity scores of the total sample of upper primary students with respect to their level of Scholastic Backwardness (N = 1243).

4.74 Mean values, SDs and t- value of Scientific Creativity Scores of VII\textsuperscript{th} standard students with respect to their level of Scholastic backwardness (N = 458).

4.75 Mean values, SDs and t- value of Scientific Creativity scores of VI\textsuperscript{th} standard students with respect to their level of Scholastic backwardness (N = 361).

4.76 Mean values, SDs and t- value of Scientific Creativity Scores of V\textsuperscript{th} standard students with respect to their level of Scholastic Backwardness (N = 424).

4.77 Mean values and SDs of Scientific Creativity scores of Scholastically Backward students of VII\textsuperscript{th} standard with respect to their level of Science Process Skills.

4.78 Summary of ANOVA of Scientific Creativity scores of Scholastically Backward VII\textsuperscript{th} standard students with respect to their level of Science Process Skills.

4.79 Mean values and SDs of Scientific Creativity scores of Scholastically Backward students of VI\textsuperscript{th} standard with respect to their level of Science Process Skills.

4.80 Summary of ANOVA of Scientific Creativity scores of Scholastically Backward VI\textsuperscript{th} standard students with respect to their level of Science Process Skills.

4.81 LSD test for pair wise comparison of Scientific Creativity scores of Scholastically Backward students of VI\textsuperscript{th} standard with respect to their level of Science Process Skills.

4.82 LSD test for pair wise comparison of Scientific Creativity scores of Scholastically Backward students of VI\textsuperscript{th} standard with respect to their level of Science Process Skills.
4.83 Summary of ANOVA of Scientific Creativity scores of Scholastically Backward students of Vth standard with respect to their level of Science Process Skills.

4.84 Mean Values, SDs and t-value of Scientific Creativity scores of upper primary students with respect to gender (N= 1243).

4.85 Mean, SDs and t-value of Scientific Creativity scores of upper primary students with respect to locality of school.

4.86 Mean, SDs and t-value of Scientific Creativity scores of upper primary students with respect to type of school.

4.87 Mean values and SDs of Scientific Creativity scores of upper primary students with respect to occupation of father.

4.88 Summary of ANOVA of Scientific Creativity scores of upper primary students with respect to the occupation of father.

4.89 Mean values and SDs of Scientific Creativity scores of Scholastically backward upper primary students with respect to the income of father.

4.90 Summary of ANOVA of Scientific Creativity scores of upper primary students with respect to the income of father.

4.91 LSD test for pair wise comparison of Scientific Creativity scores of Scholastically Backward upper primary students with respect to the income of father.

4.92 Mean values, SDs and t-value of Scientific Creativity scores of upper primary students with respect to intelligence.

4.93 Coefficient of Correlation among total Science Process Skill scores, Scholastic Backwardness scores and Scientific Creativity scores of Scholastically Backward upper primary students.
