Chapter 5: Estimating Returns to Education:

The Earnings Function

5.1 Introduction

5.2 Mincerian Earnings Function: The Model

5.3 Application of Mincer’s Earnings Function: Private

Rate of Returns to Years of Schooling

5.3(a) Overall private returns to years of schooling

5.3 (b) Private returns to education or years of schooling to different sections of the self-employed workers

5.3.(b).(i) Private Returns to Education for the Retail Traders

5.3.(b).(ii) Private Returns to Education for the Service Providers

5.3.(b).(iii) Private Returns to Education for street traders and vendors

5.4 Returns to education for own account workers

5.5 Returns to education for employers

5.6 Conclusion

Chapter 6: Summary of Findings, Conclusions and Policy Implications

6.1 Introduction:
6.2 Summary of the Principal Findings 148-157

6.2. A. Findings from the Secondary Data 148-150

6.2. B. Findings from the Analysis of Primary Data 150-157

6.2. B. (i) Findings about Employment 150-151

Generation in Guwahati City

6.2. B. (ii) Findings about the 151-154

Socio-Economic Status of

Informal Sector Workers

6.2. B. (iii) Findings about Size and 155-157

Structure of Informal Enterprises

6.3 Findings about Returns to Education 158-159

6.4 Conclusions 159-161

6.5 Policy Implication 161-163

Bibliography 164-183

Annexure (Interview schedule for field work) 184-189
