List of Figures

2.1 Plot of $U(x,t)$ w.r.t. control parameter $\hbar$ at $\alpha = 1.5, 1.75, 2.0$ . . 37
2.2 Plot of $U(x,t)$ w.r.t. $x$ and $t$ at $\alpha = 1.5$ . . . . . . . . . . 37
2.3 Plot of $U(x,t)$ w.r.t. $x$ and $t$ at $\alpha = 1.75$ . . . . . . . . . . 38
2.4 Plot of $U(x,t)$ w.r.t. $x$ and $t$ at $\alpha = 2.0$ . . . . . . . . . . 38
2.5 Plot of exact solution of $U(x,t)$ w.r.t. $x$ and $t$ . . . . . . . . . . 39
2.6 Plot of $U(x,t)$ w.r.t. $\hbar$ at $t = 0.1$ and $x = 1$ . . . . . . . . . 43
2.7 Plot of $U(x,t)$ w.r.t. $x$ and $t$ at $\alpha = 1.5$ . . . . . . . . . . 43
2.8 Plot of $U(x,t)$ w.r.t. $x$ and $t$ at $\alpha = 1.75$ . . . . . . . . . . 44
2.9 Plot of $U(x,t)$ w.r.t. $x$ and $t$ at $\alpha = 2.0$ . . . . . . . . . . 44
2.10 Plot of exact solution of $U(x,t)$ w.r.t. $x$ and $t$ . . . . . . . . . . 45
2.11 Plot of $U(x,t)$ w.r.t. $\hbar$ at $t = 0.1$ and $x = 1$ . . . . . . . . . 49
2.12 Plot of $U(x,t)$ w.r.t $x$ and $t$ at $\alpha = 1.5$ . . . . . . . . . . 49
2.13 Plot of $U(x,t)$ w.r.t. $x$ and $t$ at $\alpha = 1.75$ . . . . . . . . . . 50
2.14 Plot of $U(x,t)$ w.r.t. $x$ and $t$ at $\alpha = 2.0$ . . . . . . . . . . 50
2.15 Plot of exact solution of $U(x,t)$ w.r.t. $x$ and $t$ . . . . . . . . . . 51
3.1 \( h \) curve for different values of \( \alpha \) ........................................... 62
3.2 Plot of approximate solution for value \( \alpha = 0.5 \) .......................... 63
3.3 Plot of approximate solution for value \( \alpha = 0.75 \) ......................... 63
3.4 Plot of approximate solution for value \( \alpha = 1 \) .............................. 63
3.5 Plot of exact solution for value \( \alpha = 1 \) ................................. 64
3.6 The behaviour of solution for different values \( \alpha \) at \( x = 1, h = -1 \). 64
3.7 The behaviour of solution for different values \( \alpha \) at \( t = 1, h = -1 \). 64
3.8 \( h \) curve for different values of \( \alpha \) ........................................... 69
3.9 Plot of approximate solution for value \( \alpha = 0.5 \) .......................... 69
3.10 Plot of approximate solution for value \( \alpha = 0.75 \) ......................... 70
3.11 Plot of approximate solution for value \( \alpha = 1 \) .............................. 70
3.12 Plot of exact solution for value \( \alpha = 1 \) ................................. 70
3.13 The behaviour of solution for different values \( \alpha \) at \( x = 1, h = -1 \). 71
3.14 The behaviour of solution for different values \( \alpha \) at \( t = 1, h = -1 \). 71
3.15 \( h \) curve for different values of \( \alpha \) ........................................... 75
3.16 Plot of approximate solution for value \( \alpha = 0.5 \) .......................... 75
3.17 Plot of approximate solution for value \( \alpha = 0.75 \) ......................... 76
3.18 Plot of approximate solution for value \( \alpha = 1 \) .............................. 76
3.19 Plot of exact solution for value \( \alpha = 1 \) ................................. 76
3.20 The behaviour of solution for different values \( \alpha \) at \( x = 1, h = -1 \). 77
3.21 The behaviour of solution for different values \( \alpha \) at \( t = 1, h = -1 \). 77
4.1 Plot of $\xi(x,t)$ w.r.t $x$ and $t$ at $\alpha = 0.9$. ..................................  92
4.2 Plot of $\xi(x,t)$ w.r.t $x$ and $t$ at $\alpha = 0.95$. .................................  93
4.3 Plot of $\xi(x,t)$ w.r.t $x$ and $t$ at $\alpha = 1$. .................................  93
4.4 Plot of exact solution of $\xi(x,t)$ w.r.t $x$ and $t$. .................................  94
4.5 Plot of $\xi(x,t)$ w.r.t $x$ and $t$ at $\alpha = 0.9$. .................................  97
4.6 Plot of $\xi(x,t)$ w.r.t $x$ and $t$ at $\alpha = 0.95$. .................................  97
4.7 Plot of $\xi(x,t)$ w.r.t $x$ and $t$ at $\alpha = 1$. .................................  98
4.8 Plot of exact solution of $\xi(x,t)$ w.r.t $x$ and $t$. .................................  98

5.1 Plot of $U(x,t)$ w.r.t $t$ at $x = 0.5$ for $\alpha = 0.3, 0.6, 0.9, 1.0$ and
exact solution. .................................................................  113
5.2 Plot of $V(x,t)$ w.r.t $t$ at $x = 0.5$ for $\alpha = 0.3, 0.6, 0.9, 1.0$ and
exact solution. .................................................................  113
5.3 Plot of $U(x,t)$ w.r.t $t$ at $x = 0.5$ for $\alpha = 0.3, 0.6, 0.9, 1.0$ and
exact solution. .................................................................  118
5.4 Plot of $V(x,t)$ w.r.t $t$ at $x = 0.5$ for $\alpha = 0.3, 0.6, 0.9, 1.0$ and
exact solution. .................................................................  119
5.5 Plot of $W(x,t)$ w.r.t $t$ at $x = 0.5$ for $\alpha = 0.3, 0.6, 0.9, 1.0$ and
exact solution. .................................................................  119

6.1 Plot of the $U(x,t)$ when $\alpha = 0.976, \beta = 0.849$ green curve: approximate solution; red curve: exact solution at $x = 0.572$ and
$\hbar = -0.87$. .................................................................  131
6.2 Plot of the $U(x,y,t)$ when $\alpha = 0.84$, $\beta = 0.868$, $\gamma = 0.986$ green curve: approximate solution; red curve: exact solution at $x = 4.57416$, $y = 5.21504$ and $h = -0.38$.

6.3 Plot of the $U(x,y,z,t)$ when $\alpha = 0.806$, $\beta = 0.956$, $\gamma = 0.812$, $\delta = 0.934$ green curve: approximate solution; red curve: exact solution at $x = 0.860$, $y = 1$, $z = 0.774$ and $h = -1.925$.

6.4 Plot of the $U(x,t)$ when $\alpha = 0.91$, $\beta = 0.582$ green curve: approximate solution; red curve: exact solution at $x = 0.445$ and $h = -1.54$.

6.5 Plot of the $U(x,t)$ when $\alpha = 0.91$, $\beta = 0.582$ green curve: approximate solution; red curve: exact solution at $x = 0.445$ and $h = -1.54$.

6.6 Plot of the $U(x,y,z,t)$ when $\alpha = 0.923$, $\beta = 0.783$, $\gamma = 0.916$, $\delta = 0.944$ green curve: approximate solution; red curve: exact solution at $x = 0.135$, $y = 0.182$, $z = 0.1$ and $h = -2.13$.

6.7 $h-$ curve for the validity of control parameter range.

6.8 Plot of $U(x,t)$ with respect to $x$, $t$ at $\alpha = 0.7$.

6.9 Plot of $U(x,t)$ with respect to $x$, $t$ at $\alpha = 0.8$.

6.10 Plot of $U(x,t)$ with respect to $x$, $t$ at $\alpha = 0.9$.

6.11 Plot of $U(x,t)$ with respect to $x$, $t$ at $\alpha = 1$.

6.12 Plot of exact solution with respect to $x$, $t$.

6.13 $h-$ curve for the validity of control parameter range.

6.14 Plot of $U(x,t)$ with respect to $x$, $t$ at $\alpha = 0.7$.

6.15 Plot of $U(x,t)$ with respect to $x$, $t$ at $\alpha = 0.8$. 

vii
6.16 Plot of $U(x,t)$ with respect to $x$, $t$ at $\alpha = 0.9$. . . . . . . . . . . 173
6.17 Plot of $U(x,t)$ with respect to $x$, $t$ at $\alpha = 1$. . . . . . . . . . . 173
