ACKNOWLEDGEMENTS

Completing this research was a very rewarding experience. It was not however, without moments of uncertainty and doubt. It was the expert guidance of my Research Guide Dr. C. M. Joshi, which helped me to tide over challenges which I faced during this process. He was extremely patient and encouraging. He gave me the freedom to search my own ways but at the same time warned me about the pitfalls. His experience in the field of research, knowledge and guidance has helped me reach the end of this process. I am deeply indebted to Dr. C. M. Joshi for being my guide in this intellectually challenging and rewarding journey of research.

I would also like to thank Dr. Rachana Shikhare, HNIMRW Research Centre In-charge and Dr. Jagdish Pol, Director of HNIMRW, for the cooperation extended by both of them, time and again. The entire staff of the Research Centre was also very cooperative and facilitated the smooth transit of my research.

The journey is sometimes more important than the final destination. I owe it to my fellow colleagues to make this journey a very pleasant one indeed. A very special, heartfelt gratitude towards my professional colleagues: CA Rohit Mehendale, CA Saloni Shah for their inputs from Industry. There are many others: respondents, colleagues and friends, whose names I would have liked to include here but for the sake of brevity, I would only thank all of them for helping me with their invaluable suggestions and providing references.

Last but definitely not the least, I would like to thank my family. My husband has been my pillar of strength. My son has been my source of inspiration and motivation. My parents have always been a constant source of encouragement and unconditional support. My in-laws have pro-actively supported me in all my academic endeavors. ‘Thank you’ is a very inadequate word to express my gratitude towards all of them. This research would not have been possible without their unconditional love and support.
