Research work for Doctoral Degree is a long journey and can never be completed without the support and assistance from a number of people. With a deep sense of gratitude, I would like to express my sincere thanks to both of my Supervisors, Dr. S.K Singh and Dr. Yogesh Upadhyay, who accepted my proposal for Doctoral study under their guidance. I thank them for their continuous support and help throughout the course of this study.

I would also like to thank Dr. George Thomas who motivated me to start this research work and helped me to build the ideas incorporated in the research work. The confidence and dynamism with which Mr. Anil K. Singh guided the work requires no elaboration. His assistance at the time of crisis would be remembered lifelong. I would also like to thank Dr. Garima Mathur in particular for giving valuable inputs, suggestions and above all her valuable time during the course of my research work.

My sincere thanks go to all the respondents who participated in this survey. Without them, the thesis would never have been possible.

I am immensely grateful to my parents and my younger sister who showed faith in my ability to take up the research work and continuously inspired me towards fulfillment for this research work. They rendered me enormous support during the whole tenure of my research. Words are not enough for thanking my husband who provided me the moral support throughout this journey. Without his loving support, understanding and contribution I would never have completed my research work. Particularly I owe to my daughter Anvi for her silent prayer for my work at the time when she needed me the most.

Last but not the least; I would like to thank my in-laws for understanding my interest in doctoral research and supporting me in this endeavor. Also, I would like to thank all whose direct and indirect support helped me completing my thesis in time.
