ACKNOWLEDGEMENTS

This humble fruit of the paltry efforts of the investigator has been made possible by the Invisible Hand of Providence through the expert and kindly Supervision of Dean, Dr. Meenakshi (my ever revered Teacher and Supervisor); the valuable suggestions of Dr. Kulwinder Singh (Head, Deptt. of Edu. and Community Service, P. U., Patiala); the cogent suggestions on Statistical Techniques from Dr. Khushwinder Kumar (Principal, BCM College of Education, Ludhiana); the opinions and suggestions of various experts and school teachers; the love and support of my family; the words of inspiration from Dr. H. S. Brar (Principal, GHG Khalsa College of Education, Sadhar), Dr. Manu Chadha (a nice friend), Late Dr. Darshan Singh (Deptt. of Edu. and Community Service, P. U., Patiala, whose love couldn’t be returned) and Dr. H. S. Sidhu and Dr. S. S. Sangha (Principal, GMT College of Education, Ludhiana and Dashmesh College of Education, Badal, who both believed in me on a day when even I didn’t have faith in myself); the ever eagerly provided assistance by Mr. Prabhdyal (Deptt. of Edu. and Community Service, P. U., Patiala) and S. Jagtar Singh (GHG Khalsa College of Education, Sadhar) and the “Divine Refuge” and free food of Gurudwara Dukhniwaran Sahib, Patiala.

All your contributions (and of scores of others whose names scarcity of space doesn’t allow to be mentioned in full) are copiously acknowledged with a deep sense of indebtedness which no language can express.

You are all big partners in this small accomplishment. I am truly privileged to have you all with me.

Ikpreet Singh
