It gives me immense pleasure to express my deep sense of regards to my research guide Dr SUDIPTA PAL for giving me the great opportunity to become first Ph D student and for doing his best to motivate and inspire me and also for the freedom throughout the path of my research. Working with him, has indeed helped me to mature, both, as a student and a human being.

I would like to acknowledge DST-FAST TRACK and DST-FIST, government of India for the projects.

I am thankful to University of Kalyam for the financial support and providing me the experimental facilities.

My sincere regards to present and past Heads of the Department of Physics, University of Kalyam for providing me the departmental facilities I also wish to extend my acknowledgements to all the faculty members of the Department for their moral support.

It also gives me a great pleasure to express my bottomless regards to Prof D Das and S. Chatterjee, UGC–DAE CSR, Kolkata Centre, for PPMS and SQUID experimental facility.

I am sincerely thankful to Dr. S. Bhattacharya of this department for the experimental help and giving his valuable time for technical discussions during this work.

My acknowledgements are also due for Dr Y M Jana, University of Kalyani, for providing me the high temperature programmable furnace.

I would like to thank to Dr A Dutta, The University of Burdwan, for giving me the experimental facilities.
Now, it is time to remember my colleague, Dr. E. Bose and Mr. S. Biswas for the enjoyable moments like a family during my research.

Last but not least, I feel short of words when I put on record the efforts of my parents Mr. G. H. Khan, Mrs. A. Begum in supporting me throughout these years with all the hardships they have faced for me. I wish to thank my brothers Mehebub, Mahammad, Ajijul Khan and sister S. Khatun.
