I express my sincere gratitude to Professor Dr. O.K. Roy, Department of Pharmacy, Jadavpur University, for his valuable guidance to carry out the work presented in this thesis. I am also indebted to (Late) Prof. A. Sengupta, Department of Pharmacy, for helping me in many ways.

I am grateful to Prof. B. K. Bachhawat, Director, Indian Institute of Experimental Medicine (IIEM), Calcutta, for permitting me to use laboratory facilities regarding chromatographic separation and purification of the material. Thanks are due to Dr. S. B. Mahato and Dr. Bikash Pai, IIEM, Calcutta, for their kind help regarding purification, chemical characterization and interpretation of results (GLC, IR, Mass and NMR Spectra).

I am also indebted to Dr. N. Roy, Indian Association for the Cultivation of Science, Calcutta for NMR spectrum and Prof. J. Dutta, Bose Institute, Calcutta, for GLC analysis of the material.

I am also indebted to Dr. (Mrs.) Malaya Gupta of our Department for the interpretation of the biopharmacological aspects of the material.
I wish to thank Dr. S. Mandal, Dr. A. Banerjee, Mr. U. Saha, Mr. A. K. Saha, Dr. (Mrs) P. Sar, Mrs. B. Hazra and Mr. M.P. Singh for their valuable suggestions and cooperation.

Calcutta, The 9th June, 1981,
Department of Pharmacy,
Jadavpur University,
Calcutta - 700032.
