LIST OF TABLES

Chapter I

Table 1.1 Phytochemical screening of *C. benghalensis* and *C. quadrangularis*

Table 1.2 Quantitative analysis of phytochemicals

Table 1.3 List of compounds identified in crude and steroid extract of *C. benghalensis* by GC-MS analysis

Table 1.4 List of compounds identified in crude and steroid extract of *C. quadrangularis* by GC-MS analysis

Table 1.5 Total antioxidant capacity

Chapter II

Experiment 1

Table 2.1 Effect of *C. benghalensis* and *C. quadrangularis* on body weight of QP exposed male mice

Table 2.2 Effect of *C. benghalensis* and *C. quadrangularis* on the weight of reproductive organs of QP exposed male mice

Table 2.3 Effect of *C. benghalensis* and *C. quadrangularis* on testicular antioxidants activities of QP intoxicated male mice

Table 2.4 Effect of *C. benghalensis* and *C. quadrangularis* on the level of ascorbic acid and LDH of QP intoxicated male mice.

Table 2.5 Effect of *C. benghalensis* and *C. quadrangularis* on testicular biochemistry of QP administered male mice

Table 2.6 Effect of *C. benghalensis* and *C. quadrangularis* on sperm count and viability of QP intoxicated male mice

Table 2.7 Effect of *C. benghalensis* and *C. quadrangularis* on th level of serum testosterone and cholesterol of QP intoxicated male mice
Experiment 2

Table 2.8 Effect of *C. benghalensis* and *C. quadrangularis* on body weight of AHN exposed male mice

Table 2.9 Effect of *C. benghalensis* and *C. quadrangularis* on the weight of reproductive organs of AHN exposed male mice

Table 2.10 Effect of *C. benghalensis* and *C. quadrangularis* on testicular antioxidants activities of AHN exposed male mice

Table 2.11 Effect of *C. benghalensis* and *C. quadrangularis* on the level of ascorbic acid and LDH of AHN intoxicated male mice

Table 2.12 Effect of *C. benghalensis* and *C. quadrangularis* on testicular biochemistry of AHN exposed male mice

Table 2.13 Effect of *C. benghalensis* and *C. quadrangularis* on sperm count and viability of AHN administered male mice

Table 2.14 Effect of *C. benghalensis* and *C. quadrangularis* on serum testosterone and cholesterol level of AHN intoxicated male mice

Experiment 3

Table 2.15 Effect of *C. benghalensis* and *C. quadrangularis* on body weight of CBZ intoxicated male mice

Table 2.16 Effect of *C. benghalensis* and *C. quadrangularis* on the weight of reproductive organs of CBZ exposed male mice

Table 2.17 Effect of *C. benghalensis* and *C. quadrangularis* on testicular antioxidants activities of CBZ exposed male mice

Table 2.18 Effect of *C. benghalensis* and *C. quadrangularis* on the level of ascorbic acid and LDH of CBZ intoxicated male mice.

Table 2.19 Effect of *C. benghalensis* and *C. quadrangularis* on testicular biochemistry of CBZ exposed male mice

Table 2.20 Effect of *C. benghalensis* and *C. quadrangularis* on sperm count and viability of CBZ intoxicated male mice.

Table 2.21 Effect of *C. benghalensis* and *C. quadrangularis* on the level of serum testosterone and cholesterol of CBZ intoxicated male mice.
Chapter III

Table 3.1  Effect of *C. benghalensis* and *C. quadrangularis* on LH level of QP administered male mice

Chapter IV

Experiment 1

Table 4.1  Effect of *C. benghalensis* and *C. quadrangularis* on organs weight of QP exposed male mice

Table 4.2  Effect of *C. benghalensis* and *C. quadrangularis* on liver marker enzymes of QP intoxicated male mice

Table 4.3  Effect of *C. benghalensis* and *C. quadrangularis* on kidney markers of QP administered male mice

Table 4.4  Effect of *C. benghalensis* and *C. quadrangularis* on the level of glucose and triglycerides of QP administered male mice

Table 4.5  Effect of *C. benghalensis* and *C. quadrangularis* on liver lipid peroxidation and antioxidants of QP intoxicated male mice

Experiment 2

Table 4.6  Effect of *C. benghalensis* and *C. quadrangularis* on organs weight of AHN exposed male mice

Table 4.7  Effect of *C. benghalensis* and *C. quadrangularis* on liver marker enzymes of AHN intoxicated male mice

Table 4.8  Effect of *C. benghalensis* and *C. quadrangularis* on kidney markers of AHN administered male mice

Table 4.9  Effect of *C. benghalensis* and *C. quadrangularis* on the level of glucose and triglycerides of AHN administered male mice

Table 4.10 Effect of *C. benghalensis* and *C. quadrangularis* on liver lipid peroxidation and antioxidants of AHN intoxicated male mice
Experiment 3

Table 4.11 Effect of *C. benghalensis* and *C. quadrangularis* on organs weight of CBZ exposed male mice

Table 4.12 Effect of *C. benghalensis* and *C. quadrangularis* on liver marker enzymes of CBZ administered male mice

Table 4.13 Effect of *C. benghalensis* and *C. quadrangularis* on kidney markers of CBZ administered male mice

Table 4.14 Effect of *C. benghalensis* and *C. quadrangularis* on the level of glucose and triglycerides of CBZ administered male mice

Table 4.15 Effect of *C. benghalensis* and *C. quadrangularis* on liver lipid peroxidation and antioxidants of CBZ administered male mice
LIST OF FIGURES

Chapter I

Figure 1.1 GC-MS chromatogram of crude aqueous extract of *C. benghalensis*

Figure 1.2 GC-MS chromatogram of steroid extracted from aqueous extract of *C. benghalensis*

Figure 1.3 GC-MS chromatogram of crude aqueous extract of *C. quadrangularis*

Figure 1.4 GC-MS chromatogram of steroid extracted from aqueous extract of *C. quadrangularis*

Figure 1.5 Scavenging activity of aqueous extract of *C. benghalensis* and *C. quadrangularis* against DPPH radical

Figure 1.6 Scavenging activity of aqueous extract of *C. benghalensis* and *C. quadrangularis* against ABTS radical

Figure 1.7 Reducing power of aqueous extract of *C. benghalensis* and *C. quadrangularis*.

Chapter II

Experiment 1

Figure 2.1 Effect of *C. benghalensis* and *C. quadrangularis* on body weight of QP intoxicated male mice

Figure 2.2 Effect of *C. benghalensis* and *C. quadrangularis* on reproductive organs weight of QP intoxicated male mice

Figure 2.3 Effect of *C. benghalensis* and *C. quadrangularis* on testicular lipid peroxidation and antioxidants of QP intoxicated male mice

Figure 2.4 Effect of *C. benghalensis* and *C. quadrangularis* on the level of ascorbic acid of QP induced male mice

Figure 2.5 Effect of *C. benghalensis* and *C. quadrangularis* on the level of LDH in QP induced male mice
Figure 2.6  Effect of *C. benghalensis* and *C. quadrangularis* on testicular biochemistry of QP administered male mice

Figure 2.7  Effect of *C. benghalensis* and *C. quadrangularis* on (a) Sperm count and (b) Sperm viability of QP exposed male mice

Figure 2.8  Effect of *C. benghalensis* and *C. quadrangularis* on serum testosterone level of QP exposed male mice

Figure 2.9  Effect of *C. benghalensis* and *C. quadrangularis* on serum cholesterol level of QP exposed male mice

Experiment 2

Figure 2.10  Effect of *C. benghalensis* and *C. quadrangularis* on body weight of AHN intoxicated male mice

Figure 2.11  Effect of *C. benghalensis* and *C. quadrangularis* on reproductive organs weight of AHN intoxicated male mice

Figure 2.12  Effect of *C. benghalensis* and *C. quadrangularis* on testicular lipid peroxidation and antioxidants of AHN intoxicated male mice

Figure 2.13  Effect of *C. benghalensis* and *C. quadrangularis* on the level of ascorbic acid of AHN intoxicated male mice

Figure 2.14  Effect of *C. benghalensis* and *C. quadrangularis* on the level of LDH of AHN intoxicated male mice

Figure 2.15  Effect of *C. benghalensis* and *C. quadrangularis* on testicular biochemistry of AHN administered male mice

Figure 2.16  Effect of *C. benghalensis* and *C. quadrangularis* on (a) Sperm count and (b) Sperm viability of AHN exposed male mice

Figure 2.17  Effect of *C. benghalensis* and *C. quadrangularis* on serum testosterone level of AHN exposed male mice

Figure 2.18  Effect of *C. benghalensis* and *C. quadrangularis* on serum cholesterol level of AHN exposed male mice
Experiment 3

Figure 2.19 Effect of C. benghalensis and C. quadrangularis on body weight of CBZ intoxicated male mice

Figure 2.20 Effect of C. benghalensis and C. quadrangularis on reproductive organs weight of CBZ intoxicated male mice

Figure 2.21 Effect of C. benghalensis and C. quadrangularis on testicular lipid peroxidation and antioxidants of CBZ intoxicated male mice

Figure 2.22 Effect of C. benghalensis and C. quadrangularis on the level of ascorbic acid of CBZ intoxicated male mice

Figure 2.23 Effect of C. benghalensis and C. quadrangularis on the level of LDH of CBZ intoxicated male mice

Figure 2.24 Effect of C. benghalensis and C. quadrangularis on testicular biochemistry of CBZ administered male mice

Figure 2.25 Effect of C. benghalensis and C. quadrangularis on (a) sperm count and (b) sperm viability of CBZ exposed male mice

Figure 2.26 Effect of C. benghalensis and C. quadrangularis on testosterone level of CBZ exposed male mice

Figure 2.27 Effect of C. benghalensis and C. quadrangularis on serum cholesterol of CBZ exposed male mice

Chapter III

Figure 3.1. Effect of C. benghalensis and C. quadrangularis on the level of 3β-HSD enzyme of QP exposed male mice

Figure 3.2. Effect of C. benghalensis and C. quadrangularis on the level of 17β-HSD enzyme of QP exposed male mice

Figure 3.3. Effect of C. benghalensis and C. quadrangularis on testicular mRNA expressions of StAR protein and steroidogenic enzymes following exposure to QP.

Figure 3.4. Effect of C. benghalensis and C. quadrangularis on testicular StAR protein expression (30 kDa) of QP intoxicated male mice
Chapter IV

Experiment 1

Figure 4.1 Effect of *C. benghalensis* and *C. quadrangularis* on organs weight of QP intoxicated male mice.

Figure 4.2 Effect of *C. benghalensis* and *C. quadrangularis* on liver marker enzymes of QP intoxicated male mice

Figure 4.3 Effect of *C. benghalensis* and *C. quadrangularis* on kidney markers of QP administered male mice

Figure 4.4 Effect of *C. benghalensis* and *C. quadrangularis* on the level of glucose and triglycerides of QP administered male mice

Figure 4.5 Effect of *C. benghalensis* and *C. quadrangularis* on liver lipid peroxidation and antioxidants of QP intoxicated male mice

Experiment 2

Figure 4.6 Effect of *C. benghalensis* and *C. quadrangularis* on organs weight of AHN exposed male mice

Figure 4.7 Effect of *C. benghalensis* and *C. quadrangularis* on liver marker enzymes of AHN intoxicated male mice

Figure 4.8 Effect of *C. benghalensis* and *C. quadrangularis* on kidney markers of AHN administered male mice

Figure 4.9 Effect of *C. benghalensis* and *C. quadrangularis* on the level of glucose and triglycerides of AHN administered male mice

Figure 4.10 Effect of *C. benghalensis* and *C. quadrangularis* on liver lipid peroxidation and antioxidants of AHN intoxicated male mice

Experiment 3

Figure 4.11 Effect of *C. benghalensis* and *C. quadrangularis* on organs weight of CBZ exposed male mice

Figure 4.12 Effect of *C. benghalensis* and *C. quadrangularis* on liver marker enzymes of CBZ administered male mice
Figure 4.13  Effect of *C. benghalensis* and *C. quadrangularis* on kidney markers of CBZ administered male mice

Figure 4.14  Effect of *C. benghalensis* and *C. quadrangularis* on the level of glucose and triglycerides of CBZ administered male mice

Figure 4.15  Effect of *C. benghalensis* and *C. quadrangularis* on liver lipid peroxidation and antioxidants of CBZ administered male mice
