ACKNOWLEDGEMENT

In the preparation of this great work of my career I received necessary support and encouragement quite a few people without which I would not have been able to accomplish this task. In accordance with the traditional principles of our culture therefore I wish to write out a few words by way of my humble acknowledgement of their benevolences.

First and foremost I wish to acknowledge the support I received from my Almighty in pursuing my studies from the beginning up to this stage of my academic career. The knowledge I gained the intricate problems of the investigatory process which I could successfully tackle and the capacities that He gave me to completed this Thesis are the great blessings of my Almighty which I wish to acknowledge in the very opening words of my Thesis.

Then to my mother, Mrs. Kripal Kaur Nirmale and to my father S. Daulatsingh Nirmale I owe a deep debt of gratitude because of whom I could not only see this world but also I achieved every thing in my life. Without their timely support and encouragement I could not have achieved anything. Special thanks to my father, who always accompanied me and has been of great support to me throughout.

I am grateful to my learned Guide, Dr. Madanmohan Singh Khalsa, the navigator in my life without whom this thesis would not have been completed. His vast knowledge in the field of law and his fatherly attitude towards the students provided me the necessary inspiration for a detailed study of a difficult question of law and fact on my topic of research. I shall remember always the help I received from him and pray for his blessed guidance to me and to others in the days to come.

I would like to thank the staff of JJT University from whom I received necessary help which has enabled me to fulfill the procedures of the University.
