Acknowledgement

I take this opportunity to express my sincere gratitude and deep respect to my supervisors, Prof. (Dr.) Ranjana Chowdhury and Prof. (Retd.) (Dr.) Pinaki Bhattacharya, Chemical Engineering Department, Jadavpur University for their guidance, constant help and encouragement throughout the course of my research work. I sincerely acknowledge the invaluable academic and personal support I received from them without which it would not have been possible for me to shape this thesis in the present form.

I sincerely acknowledge the financial assistance provided by UGC-BSR. I convey my sincere gratitude to Prof. Jay Shankar and Mr. Sourav Chatterjee, National Institute of Chemical Biology, Kolkata for their help to determine the chemical compounds present in the natural food samples using HPLC. I extend my thanks to Mr. Joydip Mukherjee from R.V.Briggs & Co. Pvt. Ltd. for allowing me to work on pathogenic organisms in their laboratory.

My sincere thanks go to the staff Members of library of Chemical Engineering Department, Jadavpur University, for their spontaneous help and support during the course of my research work.

My sincere thanks are also due to all fellow scholars for their kind co-operation and support.

I am sincerely thankful to my parents, especially to my father for his robust optimistic encouragement throughout my life. I convey my gratitude to my mother for her support in time of difficulties. I am also thankful to my husband for his constant moral support and valuable advice. I extend my sincere gratitude to all other members of my family for their valuable support. My sincere gratitude goes to my mother-in-law for her support, care and encouragement during the course of my research work.

Above all, I am heartily thankful to my little one, Master Anjisnu Koruri for his constant cooperation, patience and sacrifice during the course of my research work.

Sharmistha Samanta Koruri
