ACKNOWLEDGEMENT

It is with esteemed pleasure I express my heartfelt gratitude and indebtedness to my research guide Dr. J G Ray for his valuable guidance, constant moral support and encouragement throughout the course of my Ph.D. programme. I have learned from him, how to think and how to raise fundamental questions to become a successful researcher. His profound insight, valuable suggestions, appreciation and focus on excellence enabled me to attain high achievement and satisfaction in my research life.

I express my deep sense of gratitude to Dr. Keerthi T. R., Director, School of Biosciences, for the facilities provided for successful completion of my Ph.D. programme.

I am indebted to the Mahatma Gandhi University for the JRF provided during the initial period of 4 years and Kerala State Council for Science Technology and Environment (KSCSTE) for the project fellowship provided during the rest of the periods of my Ph.D. work.

I wish to express my sincere thanks to Prof. M.S. Latha and Prof. Jyothis Mathew, former directors, School of Biosciences, Mahatma Gandhi University, Kottayam for the facilities provided for carrying out my Ph.D. work. The help rendered by all the teachers and office staff, Laboratory staff and non teaching staff at the School of Biosciences is also gratefully acknowledged.

I extend my sincere thanks to Dr. N Valsalakumar (Former Assistant coordinator, National Institute of Plant Science Technology, Mahatma Gandhi University, Kottayam) for his valuable encouragement given during my Ph.D. programme.

I gratefully acknowledge Dr. Ibnu Saud (Director, IIRBS, Mahatma Gandhi University, Kottayam) for the Atomic Absorption Spectroscopy facility provided at his esteemed IIRBS.
I would like to express my sincere thanks and gratitude to my lab mates Mr. Prasanthkumar S, Mrs. Soumya Soman, Mrs. Chandana C, Mr. Nidheesh K.S., Mr. Abju K Arun, Mrs. Deepthi A.S and Mrs. Anitha Jose for the valuable research assistance and support extended to me during the entire programme.

The support, encouragement and goodwill of Mr. Mohind C Mohan, Mr. Renjith Mahasenan, and all the members of research community at School of Biosciences, Mahatma Gandhi University, during my research work are highly appreciable.

I also express my gratitude to Mr. Shibu and Mr. Unni, staff of Minitex computers for the DTP work of the thesis.

I take this opportunity to express my gratitude and indebtedness to my brother Mr. Abhilash Kookal; without his constant wishes, encouragement and financial support it would not have been possible for me to fulfill this ambition.

I am deeply indebted to my mother Mrs. Kamalakshi and my father Mr. Gopalan Nair for their blessing, prayers and the constant moral support for all the activities and successful studies in my life. I wish to express my gratitude to all my family members, Mrs. Ambika Abhilash and family friends for their encouragement and constant support in the completion of my thesis.

Santhosh Kumar. K
