LIST OF FIGURES

Figure 1.1. Process of polymerization .......................................................... 7
Figure 3.1. Silicafume (SF) ........................................................................... 21
Figure 3.2. Ground granulated blast furnace slag (GGBFS) ....................... 22
Figure 3.3. NaOH pellets & prepared solution of NaOH and Na$_2$SiO$_3$ ........ 24
Figure 3.4. Flow chart showing methodology adopted for the present work .... 28
Figure 3.5. Thermal curing of geopolymer concrete .................................... 30
Figure 3.6. Sorptivity test ............................................................................ 32
Figure 4.1. Compressive strength of SF based GPC for 8M ......................... 36
Figure 4.2. Compressive strength of SF based GPC for 14M ....................... 37
Figure 4.3. Compressive strength of SF based GPC for 16M ....................... 38
Figure 4.4. Compressive strength of SF based GPC for 8M & all AL/SF ........ 40
Figure 4.5. Compressive strength of SF based GPC for 14M & all AL/SF ..... 41
Figure 4.6. Compressive strength of SF based GPC for 16M & all AL/SF ..... 42
Figure 4.7. Compressive strength of 60% SF based GPC for 16M ............... 45
Figure 4.8. Compressive strength of GGBFS based GPC for 8M .............. 47
Figure 4.9. Compressive strength of GGBFS based GPC for all AL/GGBFS .. 49
Figure 4.10. Compressive strength of GGBFS based GPC for all SiO$_3$/OH .... 50
Figure 4.11. Compressive strength of GGBFS based GPC for 8M ............... 51
Figure 4.12. Compressive strength of GGBFS based GPC for 14M ............. 53
Figure 4.13. Compressive strength of GGBFS based GPC for 16M ............. 54
Figure 4.14. Compressive strength of GGBFS based GPC for 16M .......... 55
Figure 4.15. Sorptivity graphs for 80% SF based GPC ................................. 58
Figure 4.16. Sorptivity graphs for GGBFS based GPC for 60, 80, & 100 °C .... 59
Figure 4.17. Porosity graphs for 60% SF based GPC .................................... 61
Figure 4.18. Porosity graphs of GGBFS based GPC for 14M ....................... 62
Figure 4.19. Crack pattern of GGBFS based GPC ....................................... 76
Figure 4.20. Load Deflection curve .............................................................. 77
