ACKNOWLEDGEMENTS

First, I thank the Almighty, who gave me all the strength, knowledge and because of his divine blessings, this study was made possible. I take this opportunity as an immense pleasure to sincerely thank, Padmabushan Dr.S.S.Badrinath, Chairman Emeritus, Dr.Vasanthi Badrinath, Director of laboratory Services, Sankara Nethralaya, Chennai, for giving me an opportunity to pursue this study in this esteemed institution.

I warm and sincere thanks to Dr.Bhaskaran, Chairman, Medical Research Foundation, Dr.Ronnie George, Director of Research, Vision Research Foundation, Dr.T.S.Surendran, Vice-Chairman, Medical Research Foundation, Mr.Rajagopal President, Vision Research Foundation, Dr.Rama Rajaram, Advisory, Vision Research Foundation for extending their support.

I extend my sincere thanks to Dr.S.Meenakshi, Director of Academics and Mr.N.Sivakumar, Academic officer for their support. The road to my Ph.D started with training at Sankara Nethralaya Cancer Hospital and Vision Research Foundation, Chennai. I take this opportunity to say heartful thanks to my sincerest supervisor and mentor Dr.S.Krishnakumar for providing very good training on various techniques and building confidence in me to start my work on cancer. His unflinching courage and conviction will always inspire me, and I hope to continue to work with his noble thoughts. Under his guidance i successfully overcame many difficulties and learned a lot. He has regularly reviewed my thesis progress, gave his valuable suggestions, and made corrections. He gave the best opportunities to learn techniques, write manuscripts and
grants and helped me to establish network with the eye research community within and outside Sankara Nethralaya, which was an important stepping stone in my career.

I owe my heartfelt thanks and gratitude to my co-supervisor Dr. Uma Krishnan Maheshwari, Associate Dean, Department of Nano Biotechnology, SASTRA, Tanjore who helped me to cross this journey without any hurdles. She was with me with constant motivation and has been a great source of inspiration, enthusiasm, and strong motivator without whom this thesis would have not been, achieved.

I would like to thank Dr. Jyotirmay Biswas, Director- Larsen & Toubro Department of Ocular Pathology and Ms.K.Vanitha, Senior Executive for their constant motivation and support. My sincere thanks to Dr.V.Umashankar, HOD, Department of Bioinformatics, Mr.N.Viswanathan, Department of Bio-Statistics for their technical support in my thesis.

My sincere thanks to Dr.Vikas Khetan, Dr.G.Sugneeswari, Dr.Pukraj Rishi, Sri Bhagawan Mahavir Department of Vitreoretinal and Ocular Oncology for their valuable clinical inputs in my study.

I would also like to thank Dr.Sailaja Elchuri, Senior Scientist, Dr.Nivedita Chatterjee, Dr.J. Narayanan, Dr.Srujuna Chitipotu, and Dr.Sowmya Parameshwaran for their timely inputs during my research work.

I would like to thank VRF manager Mr. Narayan for his support. I would like to offer my special thanks to all the staff of multimedia for their full cooperation in preparation of the posters for the presentations. It was so nice to be with a group of some good friends for the last four years, and I would like to take this opportunity to thank all of them.
especially Dr. Vandhana, Dr. T. Seethalakshmi, Ms. Nalini Venkatesan, Srilatha Jasty, Ms. M. Sangeetha, Ms. R. Rajaeswari, Ms. B. Lakshmi, Ms. N. Saranya, Ms. Jaisy Samuel, Ms. S. Nithya, Ms. Sushma Kalmodia, Ms. K. Kalaivani, Mr. M. Gopi, Mr. Job Sudhakar, Mr. Ravikanth Danda, Mr. A. Prassanna Kumar, Mr. S. Jagdeesh, Mr. K. Purushothaman and my juniors and sub juniors for their timely support and help. I would like to thank Ms. P. Chitra, Lab secretary and Mr. K. Annadurai, Lab assistant for helping me to get the things on right time.

I would also like to express my sincere thanks to Department of Biotechnology (DBT), The National Program on Micro and Smart Systems (NPMASS) for their funding.

I would like to express my gratitude to the patients of Retinoblastoma, whose samples have been used under this study, and made this research possible. Last, but not least, I cannot end without thanking the most important people in my life, I thank my family especially who constantly supported me throughout this period. I would like to thank my mother Mrs B. Rohini and my father Mr. B. Appa Rao for always cheering me and allowing me to pursue higher studies. They are great examples of hard work and their faith, emotional support, love and encouragement have made this thesis possible. I would also wish to thank my loving wife Ms. B. Chandrika, who had been an enormous support, strength and without him I would not have accomplished this herculean task. I would wish to thank N. Bharathi my sister, for always cheering me and imbibed in me the confidence to keep going, my brother in Law, Dr. N. Srinivasa Rao for their blessings and continuous encouragement.

B. Madhu
