ACKNOWLEDGEMENT

I am very much thankful to the God, the Almighty, for His showers of blessings throughout my research work to complete the research successfully.

Most of us have strong desires to fly high in life but when mentors like Dr. Anil Kumar Misra [Presently HOD, Department of Geology, School of Physical Sciences, Sikkim University, Gangtok, Sikkim] come your way, you quickly develop wings! I have a deep sense of gratitude towards my guide Dr. Anil Kumar Misra who not only installed a scientific perspective in me but also taught me the lessons of life. Reading the story behind the graph, comprehending and correlating many variables and developing a bird’s eye view of the research problem to see the larger picture are few things which I learnt exclusively from him. With his scolding, appreciation and encouragement he groomed me and today, because of him, I stand confidently in this field of concrete. I bow down to him for filling my basket with the ‘joy of concrete’ and the ‘concrete of life’.

I express my sincere thanks to Dr. Amit Srivastava [Presently Professor, School of Civil Engineering, Lovely Professional University, Punjab] for providing me time to guidance and support as my co-supervisor.

I am thankful to Prof. Suren Kumar Kaushik, Retd. Head and Professor, of the Department of Civil Engineering, IIT Roorkee, my SRC member, with whom I am associated since 9 years. His ever encouraging attitude and support has significantly contributed in my pursuit for this research work.

I am thankful to Professor S. Krishnamoorthi, NCU, Gurugram, Professor Ram Karan Singh, King Khalad Univeristiy and Dr. V. Gayathri, Kumaraguru, College of Technology, Coimbatore, for being great source of encouragement, inspiration and motivation during my Pre-PhD course work.

I also wish to extend my thanks to Dr. Anil Sharma, Amrita University, Coimbatore for his suggestions and comments which helped in my research work and publications.
I am blessed with wonderful friends who are always there to divide my sorrows and multiply my happiness. I am thankful to my friends and Colleagues Dr. Bhasha Vachharajani, Dr. Anurag Kandya, Dr. Vaishali Sahu, Dr. Geetha Varma Ms. Prachi Sohoni, Ms. Meghna Sharma, Ms. Jagdeep Kaur, Ms. Bharti Saini, Ms. Anvita Sharma, Ms. Sweta, Mr. Darshit Shah, Mr. Anirban Dey, Mr. Akshay Jain who continuously supported me emotionally during all my course of study. I also extend thanks to my students for their best wishes and prayers to complete this work.

My journey at PDPU would not have started had SoT Director, Dr. H. B. Raghvendra, presently V.C. at NCU, Gurugram given me the job opportunity and allowed me to pursue my Ph.D. from NCU only. I feel greatly obliged that such privilege will always remain thankful to him.

It is not possible to think about research without facilities like Materials, testing equipments and resource persons. I am extremely thankful to prestigious laboratory like Ahmedabad Engineering Research Institute (AERI), Physical Research Laboratory (PRL). I am especially thankful to Mr. Nilesh Anandjivala, Technical person, AERI who helped me to do all the experimental work for addressing the objectives of my research project. I am also thankful to Mr. Narendra Chauhan, Scientist, PRL, helped me for micro structural studies during my research. I would like to acknowledge Mr. Shailesh Patel, lab technician, PDPU who helped me in my experimental work at some extend.

Love, encouragement and enthusiasm are the roots of intellectual foundation. My special thanks to my husband Mr. Kalpesh Dave and my son Master Nivid Dave. I want to express my deepest love and thanks to my husband, for his support, he will always say I will manage these things; you please manage your research work. This diversion of time, for his support, taking care of my son, and sharing the housework has given me an extended opportunity to work more on my research objectives for which I am really grateful to him. I thank my son, Nivid, for his sweet smile, cherish innocent love and understanding. My words would never say how grateful I am to both of you.

I cannot forget the encouragement and blessings showered by my parents-in-law Shri Jadavlal Dave and Smt. Kunjbala Dave. In all their interactions with me, they always gave high priority to my schedules for which my heart goes out to them. My special thanks to my brother-in-law Mr. Sandip Dave for his kind blessings.
Finally, I acknowledge ‘MY PARENTS’ who mean a lot to me, Mr. Vinod chandra Trivedi and Mrs. Chetana Trivedi for showing faith in me and giving me liberty to choose what I desired. I salute you all for the unconditional love, care, pain and sacrifices you did to shape my life. I also thank my brother and sisters for their love, support and valuable prayers.

I wish to extend my gratitude to all those who have directly or indirectly have supported me during the course of my research work.

Lastly, I thank the Forces of Nature who conspired to make all my wishes come true…

Niragi Dave

Department of Civil & Environmental Engineering

THE NORTHCAP UNIVERSITY, GURUGRAM
