ACKNOWLEDGEMENTS

It is with profound gratitude and indebtedness I place on record my sincere thanks to my supervisor, Dr.A.V.Sita Ramaraju, Professor of Mechanical Engineering, J.N.T.University Hyderabad, for his valuable and constant guidance and continuous encouragement throughout my research work. His patience in solving number of issues, moral support and boosting my confidence levels to accomplish my goals within the stipulated time schedule, a simple thought of mine transformed into this kind of thesis by him.

I sincerely thank my co-supervisor, Dr.K.Govindarajulu, Professor of Mechanical Engineering, J.N.T.University Anantapur, for his support and continuous encouragement for completion of my research work.

I am grateful to the authorities of J.N.T.University Hyderabad, for availing the test facilities at, J.N.T.University Hyderabad, to complete my research work.

Thanks are due to Dr.D.N.Reddy, Vice Chancellor, J.N.T.University Hyderabad and Dr.K.Rajagopal, former Vice Chancellor, J.N.T.University Hyderabad, for their continuous help and support all the times.

I sincerely thank Dr.T.Kishan Kumar Reddy, (Former Head of Mechanical Engineering Department) Director, Academic Audit Cell and Chairman BOS, J.N.T.University Hyderabad, for treating me as one of their faculty member of the Department of Mechanical Engineering and extending all the facilities for my comfortable stay in the department during my two years of deputation.
I thank Dr. M. Ashok Kumar, Head, Mechanical Engineering Department, for providing Exhaust Gas Analyzer and Smoke meter and also to use the other allied equipment in the I.C. Engines laboratory.

Thanks are due to all the Staff members of Mechanical Engineering Department, JNTUH College of Engineering, Hyderabad for their timely help during the course of this study, especially Dr. K. Kalyaniradha, for her continuous help and support during the experimentation and logging the experimental data.

I sincerely thank Dr. P. K. Dubey, Professor and Head of Chemistry department for permitting to use the lab facility and Mr. M. Chaitanya, research scholar for his continuous help in preparing the blends.

I thank Sri. Pinnamaneni Venkateshwar Rao, (Former minister for Higher and Technical Education), Sri. P. Ashwinkumar (Infologic Systems, Hyderabad) and Sri. Sarath Varma, (Vijaya Display Services, Hyderabad) for their expertise guidance and service aspects in the field of electronics.

I thank Dr. V. V. Ramana, for providing taxonomical information of selected species and Dr. B. Sesha Sreenivas and Dr. R. Pavana Guru, for their continuous encouragement.

My gratitude is due, to my parents Sri. Chandra Rama Krishnaiah and Smt. Koti Ratnamma, for showering their blessings and encouragement without which I could not have attained this stage. I thank my brothers, Dr. Ch. V. Subba Rao, Ophthalmologist and Dr. Ch. Krishna Prasad, Orthopedic Surgeon, my sisters Smt. R. Vijaya
Lakshmi and Smt.R.Usha Rani for their continuous help and encouragement.

I thank my brother’s-in-law Sri.Ravi Madhusudhan Rao, Additional Director, Industries Department, Hyderabad, Sri.Ravi Umamaheshwar Rao, Divisional Engineer, Marketing Department, Nalgonda, for their support in procuring the fuels and encouragement.

I thank my wife Mrs.Sujatha, and my daughter Ch.Mounica, Medico, for their constant help, encouragement and support during the course of this study.

Blessing showered on me by the almighty to crystallize my ideas in achieving the results in the desired direction are invaluable and I owe it with all humility.

I thank one and all who helped me directly or indirectly for completing this research work.

C.V.Mohan Rao
