ACKNOWLEDGEMENTS

I feel obliged at this point to thank several persons that contributed directly or indirectly to the completion of this work and made it possible for me not only to survive during this three year of doctoral studies but to be happy doing it.

First of all, I am greatly indebted and acknowledge with great sense of gratitude from core of my heart guide Dr. K. Rama Gopal, who constantly encouraged and inculcated in me the spirit of high standard and ethics of research. The support, guidance and motivation of these two luminaries at the various stages of my research work helped me to produce results in the form of present thesis. His understanding of the subject, encouraging attitude and personal guidance has been the source of inspiration for me. I thank to my guide for giving me the opportunity to work in an exciting field, for trusting me enough to let me choose my own way through the labyrinth of problems, for never pressing me to do something against my will and for taking an active interest in the progress of my thesis. I have immensely benefited from the discussions with him and his critical evaluations for which I shall always be obliged to him. I am sincerely grateful to him for his benevolent attitude and meticulous care which enabled me to complete this work in time.

I wish to express my deep sense of gratitude to Prof. R. Rama Krishna Reddy, for his able guidance and useful suggestions, which helped me in completing the thesis work, in time.

I owe a great many thanks to Prof. K. Rajendra Rao, Chairman, Board of Studies, Prof. R. Jeevan Kumar, Head of the Department, Prof. T. Ramanjappa, Prof. T. Sittala Rao, Dr. M.V. Lakshmaiah, Dr. Siva Sankar Reddy Lingala and non-teaching staffs for their help and cooperation to carry out my research work in the department.

I am indebted to Dr. Nazar Ahmed Yadiki, Associate Professor, Yogi Venana University, Kadapa, Dr. Abdul Azeem Assistant Professor, National Institute of Technology, Warangal and Dr. Narasimulu Kunchem, Assistant Professor, Govt. First Grade Degree College, Bellary, for their time in guiding me. They had always several solutions to my experimental problems and taught me what aerosol experimentation is all about. The comments and advice of them about my work is greatly appreciated and many thanks to them for their large interest and support during my work.
My special thanks to the members of my seniors like well-wishers Dr. Balakrishnaiah Guganetty and Dr. Pendal Reddy Matli, as scientific discussions with them was always interesting and entertaining. I acknowledge for their valuable suggestions and support from last seven years. I had received from them throughout the period of this thesis work. Many thanks are due to Dr. Ragavendra Kumar Krike, and Dr. Suresh Kumar Reddy Boreddy who have been my senior research colleagues and partners in most of the studies undertaken during the present research work. Without these two people, I would not have been able to learn the skills required to be an experimental scientist. They had pushed me really hard to better understand my work, to think critically about my results, and more importantly to write quality of scientific work.

It is pleasure to thank my colleagues Mr. Mahammad Arafath Shaik, Pavan Kunari S, Unadai Kunuta, as scientific discussions with them were always interesting and entertaining. Therefore their nice company and enthusiastic help during the initial phase of my work. I would also like to thank all my junior colleagues Siva Kumar Reddy Nagireddy and Raja Chul Reddy Kalluri for their help during the various phases of this work.

My deepest acknowledgement goes to my Best friends Dhana Sekhar Chiguripati and R Venkatakrishnaiah for their continual cooperation, encouragement and motivation from the last five, they helped me in several ways, which are invaluable.

I acknowledge Mr. Venkata Swamy Sala, Computer Programmer, Distance education section, S. K. University, Anantapur for his help in clearing the technical problems and proper alignment of various chapters of my present thesis work.

Words are inadequate to express my heartfelt thanks to Smt. Sridevi Rage, W/o Dr. K. Rama Gopal and Smt. Ramathulasi, W/o Prof. R. Ramakrishna Reddy, for their encouragement in difficulties. I shall always remember the excellent affection and hospitality shown by them whenever I went to home.

I would like to express my heartfelt thanks to my beloved parents Sri A. Chinna Sivanna, Smt. A. Nirmalamma, for their blessings, my beloved brother and sister A. Chinna Lingeswary and A. Malleswari without whose encouragement and supports I would not have attained this stage and stand nowhere.
Words are inadequate to express my heartfelt thanks to my beloved brother-in-law Srinivasulu Anakali and his family for their continual cooperation, encouragement and motivation.

I accord my thanks to all other research scholars of department of Physics; Sampath, Suban, Pandu, Mahesh, Vijay, Naven, Rashkar, Aruna, Swapna, Rajeswary and Himavathi for providing a pleasant working atmosphere in the department during the entire course of my research. I share my immense feelings of gratitude with my relatives/beloved friends Venu Gopal Kuruba, Srinivasulu S, Laxmanna S, Ramanna S, Gopal, Rama Devi, Varalakshmi, Narasimha, Jayamma, Malaiah, Kankaramana, Subhadra, Parvathi, Balakrishna and Maddaiah.

I express my sincere thanks to Prof. Shyam Lal, Physical Research Laboratory, Ahmedabad for coordinating the ISRO-GBP's AT-CTM project which became an important part of my present research.

I acknowledge Indian Space Research Organization-Geosphere Biosphere Programme, Bangalore for providing financial assistance as a research fellow, Dr. Sasha Madronich and co-workers for helping us in developing the NCAR Master Mechanism box model. MODIS, NOAA-ARL, NOAA-CDC and NASA-GES-DISC for the provision of the HYSPLIT model, NCEP/NCAR reanalysis data and satellite AOD images, respectively.

Finally, I am thankful to the authorities of Sri Krishnadevaraya University, Anantapur for providing necessary facilities in the campus.

Pedda Lingaswamy Anakali...
