### Chapter 1 Introduction

1.1. The Problem Investigated  
1.2. The Hypothesis  
1.3. The Major Assumptions  
1.4. Roadsides as Line Sources of Pollutants  
1.5. Plant Accumulation of Heavy Metals  
1.6 Importance of Natural Vegetations on Roadsides  
1.7. Roadside Vegetations: Sources of indicator and metal accumulator plants  
1.8. Significance in Phytoremediation  
1.9. The Major Aims and Objectives  
1.10. The Major Achievements  

### Chapter 2 Review of Literature

2.1. Introduction  
2.2. Roadside Pollution and the Impacts  
2.3. Heavy metal contamination in Urban Environment  
2.3.1. Urban Environment Quality and Heavy Metals  
2.3.2. Major Heavy Metals and their Sources  
2.3.3. Quantitative Assessment of Heavy Metals in Urban Environments
2.3.4. Heavy Metal Accumulation in Plants and other Organisms 28
2.3.5. Mobility of Heavy Metals from Contaminated Sites 36
2.4. Ecology of Roadside Vegetation 38
2.5. Hyper accumulator plants 42
2.6. Phytoremediation 49
2.7. Pollution Indicator Plants 54
2.8. Conclusion 56

Chapter 3 Materials and Methods

3.1. Introduction 57
3.2. The Area of Investigation 57
3.3. Phytosociological methods 59
3.4. Collection of plant and Soil Samples 59
3.5. Preparation and Analysis of Soil Samples 60
3.6. Preparation of Plants Samples 61
3.7. Extraction and Chemical Analyses of Plant Samples 61
3.8. Chemicals and Glassware 62
3.9. Statistical Analyses 63

Chapter 4 Results

4.1. Introduction 64
4.2. Roadside Vegetation 65
4.3. Lead in Soils and Plants 70
4.4. Zinc in Soils and Plants 74
4.5. Copper in Soils and Plants 79
4.6. Nickel in soils and Plants 84
4.7. The Four metals (Pb, Zn, Cu and Ni) in Different Species 89
Chapter 5 Discussion

5.1. Introduction 93
5.2. Species Composition of Natural Vegetation on Roadsides 94
5.3. Lead in Soils, Plants and the Interrelations 99
5.4. Zinc in soils, Plants and Interrelations 106
5.5. Copper in soils, Plants and Interrelations 112
5.6. Nickel in soils, Plants and Interrelations 118
5.7. Interrelationships in the Accumulation of Four Metals 123

Chapter 6 Conclusions

6.1. Introduction 126
6.2. Phytosociology of Roadside Vegetation 127
6.3. Pb in Soils and Plants 128
6.4. Zn in Soils and Plants 129
6.5. Cu in Soils and Plant 130
6.6. Ni in soils and plants 131
6.7. Four Metals Together in Plants 133
