Acknowledgements

I humbly grab this opportunity to acknowledge reverentially, many people who deserve special mentions for their varied contributions in assorted ways that helped me during my Ph. D research and the making of this thesis. I could never have embarked and finished the same without their kind support and encouragements.

In the first place, I would like to express my profound gratitude to my guide Dr. Jagruti A. Patel (Head, Pharmacology, Institute of Pharmacy, Nirma University, Ahmedabad, Gujarat, India) for her supervision, advice, and invaluable guidance from the very early stages of this research and for giving me her extraordinary research experiences throughout present study. Above all and the most needed, she provided me unflinching encouragement and support in various ways. Her truly scientist intuition has made her as a constant oasis of ideas and passions in science, which exceptionally inspired and enriched my growth as a student, and a researcher that I want to be. I am thankful to her more than she knows.

I was extraordinarily fortunate in having Dr. Anuradha K. Gajjar (Head, Pharmaceutical Chemistry, Institute of Pharmacy, NU, Ahmedabad) as my co-guide at the crucial stages of submission of my thesis. I gratefully acknowledge her timely advice, friendly demeanour, brilliant supervision and for her being a crucial link between me and my guide in USA as well as for being an avid eye to keep up with the norms of university regarding submission of my doctoral thesis. I am grateful for her kind warmth and thoughtful support provided to me, throughout the process of submission.

It is a pleasure at this point, to pay my allegiance to Dr. Lalit Vaya (Principal, ICRI, Ahmedabad) and Dr. Shrikalp Deshpande (Professor, Pharmacology, KBIPER, Gandhinagar) as a panel of review committee set up at university for the regular assessment of the progress of my research work. I thank immensely for their patient hearing of my long presentations and for the constructive comments, valuable suggestions and feedback given to me, from time to time, up to the last stages of my research work, which were tremendously helpful in improving and advancing the present work leading to this final successful outcome.

I also take this chance to thank respectfully, Dr. Avni F. Amin (I/c Director and Principal, Institute of Pharmacy, NU, Ahmedabad) and to Dr. C. Gopalkrishnan (Dean, Faculty of Doctoral Studies and Research, NU, Ahmedabad) for their kind support in doing their needful in administrative aspects, so that I could submit the thesis to university on time.
I would like to express my earnest appreciation to **Dr. D. R. Shah** (Director, and Principal, Maliba Pharmacy College, Bardoli, Surat) and to the ‘**Management, Bardoli Pradesh Kelvani Mandal**’ (BPKM), for their considerate support and encouragement to me, throughout the tenure of my research work, for allowing me to utilize so much of valuable time for the research along with my academic duties and letting me use the lab facilities and extensive library resources at college campus. Your belief in academic staff with concrete support and motivation to attend international and national conferences to continually update the knowledge and be the best in the field, wins the hands down.

I also, sincerely thank, **Dr. S. A. Shah** (PG head, Maliba Pharmacy College, Bardoli, Surat), for his kind words of appreciation and inspiration and for his sheer scholastic presence that is motivating enough to drive anyone to work harder.

I owe many thanks to **Dr. D. D. Santani** (Professor and PG head, G. M. Bilakhiya College of Pharmacy, ROEFL Campus, Vapi) who helped me from time to time, not only in terms of getting the proper resources from the pharma industries when needed but also for putting me in touch with the suitable people who became a constant and vital source of knowledge and skill while carrying out the present research work in the area of animal models and neuropsychopharmacology. One such precious help and mastermind association was **Dr. B. Ravishankar** (Head, Pharmacology, Institute of Postgraduate Teaching and Research, Dhanvantari, Gujarat Ayurved University, Jamnagar). I am indebt to him for his scientific advices and intelligent discussions regarding research in the concerned area along with the use of proper statistical methods. I thank him profusely for the hands-on- practical training provided to me by him and his staff in his laboratory, on “Important neuropsychopharmacological techniques” on the animals models utilized in the present study; a crucial contribution, which made him a backbone of this research and so, to this thesis. His involvement with his originality in research has triggered and nourished my intellectual maturity that I will benefit from, for a long time to come. Words fail me to express my appreciation for the way he helped instantly, whenever required, whether it was any glitch in dosage administration, or in method employed or even getting my hands on some vital original research papers, which I acutely needed essentially, at that point of time.

I have also benefited by some genius advice and direction from **Dr. K. Pundrikakshudu** (Director, L. J. College of Pharmacy, Ahmedabad), **Dr. Shivprakash** (MD, Synchron Research Pvt. Services Ltd, Ahmedabad and Chief Editor- Indian Journal of Pharmacology) and **Dr. Minu Parabiya** (Head, Dept of Bioscience, VNSGU, Surat) at the starting point of my thesis and thereafter. I am grateful for their valuable time offered to me, frequently, for the wonderful technical discussions on research and the resources, in person as well as on phone.
My appreciative thanks also go to Prof. R. K. Goyal (Vice chancellor, M. S. University, Baroda) for giving his precious time in having enthusiastic and extensive discussions with me and sharing some intelligent and novel ideas regarding biochemical estimations of catecholamines, whenever I meet him at some conference or workshops.

My heartfelt thanks go in particular to the people close to my heart, Dr. Priti D. Trivedi (Head, Pharmaceutical Chemistry, KBIPER, Gandhinagar), Dr. Karishma S. Shah (Executive Director, Avance’ Phytotherapies Pvt. Ltd, Ahmedabad) and Dr. Archana N. Paranjpe (Principal, Baroda College of Pharmacy, Baroda) first and foremost, for their priceless friendships and warmth and also for the intelligent scientific discussions along with the common friendly banters that we always enjoy. This is the opportunity to thank you not only for always being a invaluable, solid moral support but also for enabling me to procure some important technical resources and rendering the critical help in carrying out some essential analytical work, especially pharmacognostical part-HPTLC analysis for identification of the phytoconstituents of the three herbal extracts utilized in the present study.

It is a pleasure at this point to express my gratitude wholeheartedly to my very dear friend Priti’s family, her graceful parents for accepting me like a member of the family, with ever affectionate warmth and kind hospitality during my stay with them at Gandhinagar, on frequent basis. I also convey my great appreciation here to Dr. Parva Y. Purohit (Head, Intellectual property rights, Amneal pharmaceuticals, Ahmedabad), Priti’s spouse, for being such a warm person and for his inspiring, intellectual discussions and long friendly talks laced with humour on phone.

My special thanks go to Mr. Nilesh K. Patel (Asst. Professor, department of pharmaceutical Chemistry, Saurashtra University, Rajkot) firstly, for warm, supporting and genuine friendship that is one of the best and out of this world. I can not thank you enough for helping me carry out some indispensable analytical work including biochemical assays done with such precision and accuracy; which could not have been possible without you. My sincere thanks to you for being reachable constantly, taking out time always from your very hectic schedule, whenever entailed.

I owe a lot of thanks to Ms. Swati Patel (Statistician, SMIMER, Surat) for being a key brain behind applications of suitable statistical methods to the vast amount of data generated in the present study, with indefatigable zeal, ever smiling efforts and patience, no matter, whatever the time of day and night. I really appreciate her ever cheerful and friendly demeanour on my frequent personal visits and our ample phone conversations or mail interactions for the concerned work, which has truly enriched my knowledge in statistics.
I also warmly acknowledge my skilled colleagues in field of pharmacology, Mr. Paras Patel, Mr. Shailendra Bhatt, Mr. Bhavin Vyas and Mr. Shrikant Joshi for always being ready to help and being accessible for technical assistance and over and above adjusting my academic load, in my absence at college, whenever I had to be away for my research work.

I am heartily obliged to my dear friends and colleagues in line of work, Mr. Akshay Koli and Ms. Renu Chauhan madam, Mr. Ketan Ranch and Mr. Devang Pandya for their kind, loving friendship, steadfast belief in me as a person and a thoughtful support provided to me along with jovial natters on regular basis. I will always cherish our time spent in little chats or long discussions as a treasured memory. I also appreciatively acknowledge here, two of my colleagues at work, Ms. Sonia Pandey and Dr. Gayatri Patel for adjusting and switching lectures with mine in final year B. Pharm, very sportingly at the shortest note whenever the need arose. In fact, I truly appreciate all my colleagues at work, at present for being such a friendly, chilled out lot and creating a pleasant, very professional and academically desirable environment at college.

I am extremely thankful to the pharmaceutical companies, Sun pharma Pvt. Ltd, Mumbai, Silvassa plant and Cadila Healthcare, Ahmedabad for their kind cooperation in sending me the requested drug-APIs of fluoxetine, imipramine and reboxetine as gift samples on time and also to Ansar Industries, Surat for supplying me commercially, the aqueous extracts of the three herbs utilized in the present study.

My generous thanks to Dr. U. M. Upadhyay (Principal, Sigma Institute of Pharmacy, Baroda) for his kind help in supplying me laboratory animals for my research, many times, complimentary, from their animal house. Also, my humble thanks to Jai Research Foundation (JRF), Vapi, for providing the inexhaustible supply of animals commercially as well as complimentary, without which, this research work would not have been possible.

I offer my cordial thanks to Dr. Jayesh Sheth (Consultant Endocrinologist, Shah Pathology Laboratory, Medicare, Ahmedabad) for carrying out some initial, confirmatory work on radioimmuno assays for estimations of adrenalin and noradrenalin, commercially on the test samples delivered to his laboratory, at the outset of biochemical analysis performed on animal brain homogenates for this research work.

I want to convey my deepest appreciation to all library staff, lab technicians, office and administrative staff and Peons at Maliba Pharmacy College, Bardoli as well as at the Institute of Pharmacy, Nirma University for providing the critical help so important related to research, academics and clerical activities. I especially thank, Maheshbhai, peon at our pharmacology lab, Maliba Pharmacy College, for being a very helping hand during my countless experiments on animals for the present study.
Where would I be without my family? I am ever indebted to my parents who deserve special mention for their indissoluble support and prayers. My loving mother, Mrs. Sharda J. Gohil and my dear father, Shri Jayantilal B. Gohil, in the first place are the persons who rooted the fundamentals of strength of my character, showing me the joy of intellectual pursuit ever since I was a child and raising me earnestly with their caring, gentle love and sacrifices along with my ever supportive and caring siblings, Jigisha, Jayshree and Chetan. I can never thank you enough, dear mom and dad! Words fail me to express my appreciation to the charismatic, Jayshree (Jayshree Patel, Tech Lead, MFG Software Development, Research In Motion (RIM), Toronto, Canada), my youngest sister and her beau Asit bhai and his father, the great Navnit uncle, whose dedicated love and unrelenting confidence in me has always motivated me to work with such gusto to take much load off my shoulder. Thank you lovely bai, for being the sunshine of our lives! Thanks also, to dear Chetan, (Chitranjan Gohil, Software Engineer/Programmer, KizToys Creative Studios, South Carolina, USA) for being such a loving and understanding brother. I can not have enough of our intelligent and rowdy discussions on any topic of the world. I give a big credit to you and our Jayshree for the vast library resources at my hand that you both pulled from USA, a vitally important element in any research work. I have to dedicate the bibliography part of this thesis to you guys! Loads of thanks!

Thank you, dear Jigu (Dr. Jigisha Patel, Ayurvedic Physician, Surat) for being such a loving sister and you and Jayesh bhai both, for your warm support, care and most importantly for giving us two treasured joys in our family, little Rohan and Richa!

And finally, a mammoth thanks to the most important guy for this thesis, a computer genius who helped me put this thesis in the final pleasing shape. I convey my utmost thanks to my dear most, youngest cousin Mr. Suketu C. Patel (Mechanical Inspection Engineer), who took out his precious time, operating effortlessly and continually sharing his bright ideas with me, which proved to be very fruitful in over all presentation of this thesis. I really thank you for the constant help, for working out day and night, keeping in mind my deadlines with a smile, whether you are here in Surat, India or abroad. I also gratefully acknowledge his parents, my immediate uncle, Shri C. B. Patel and his family including dear Sujitbhai for motivating me always and helping me out in various ways.

Before I finish, I offer my regards and blessings to all of those people who supported me and offered me their gracious help in any respect during the completion of this research work; with my sincere apology, if I was not being able to mention them all individually.

And last but not the least, my unlimited thanks to number of lab animals sacrificed for finding the solutions to the aimed questions, in this research work. I would always look out for ways to put in to practice, the ‘3R’ principles to make it easier, for animal welfare.
