ACKNOWLEDGEMENTS

The author owes his deep sense of gratitude and reverence to his Supervisor Prof. Dr. D. Jayakumar, Professor and Head, Department of Geology, Madras University Post-graduate Extension centre, Government College of Engineering Campus, Salem-11 for his inspiring guidance and discussion of many ideas throughout the Project work.

The author is indebted to all the investigators referred to in the text of this dissertation.

The author acknowledges with thanks for the permission to take the relevant hydrogeological data given by Managing Director, TWAD Board, Madras-5, Mr. T. P. Natesan, Hydrogeologist, TWAD Board and Mr. Arapulisamy, Mr. Muthukumarasamy, Mr. Sahadevan and Mr. Venkatesh, TWAD Board, Salem.

The author is particularly grateful to Mr. R. Sabanayagam, Teacher fellow, Mr. S. V. Govindaraju, Teacher fellow, Mr. S. Balakumaran, Lecturer in Geology, Government college of Engineering, Salem-11 and Mr. V. Balasubramaniam, University Research Fellow, Madras University, P.G. Centre, Salem-11 for their timely suggestion and discussions throughout the period of this research work. Thanks are also due to Mr. K. V. Satyendran, Research Scholar of this department.
The author wishes to thank to his fellow researchers, Mr. R. Chandra Sekaran, and Mr. S. Sathanantham of this department for their Co-operation.

Special mention is due to Mr. Rajeswaran and Mr. N. Jambu without whose help during the project work would not have possible.

His sincere thanks to Mr. R. S. Ilangovan, Junior Assistant of this department for typing the manuscript and Mr. S. Chidambara Subramaniam and B. Subramanian of Computer Xerox for their neat typing. Finally, the author would like to thank his family members, who have been an unfailing source of encouragement and support through the process of preparing this dissertation.
