ACKNOWLEDGEMENT

All praise to God Most Gracious, Most Merciful, Who, Alone, brings forgiveness and light and new life to those who call upon Him; and to Him is the dedication of this thesis.

"Truly strong is the Grip (and Power) of the Lord. It is He who creates from the very beginning, and He can restore (life). And He is the Oft-Forgiving, Full of loving kindness, Lord of the Throne of Glory, Doer (without let) of all that He intends."

It is moment of gratification and pride to look back, to be able to recapture some of the fine moments, to be able to thank infinite number of people, some who were with me from the beginning, some who joined me at some stage during the journey. If you are thinking this is just my work. It is never one person’s work alone, and in my case, so many peoples supported me in particular. I would like to whose kindness, love and blessings has brought me to this day. I wish to take this opportunity to express the deep sense of gratitude to the people each one of them with all my heart.

I extend my heartfelt gratitude to the My guide and mentor Dr. C. S. Magdum, Principal, Prof. and Head, Department of pharmaceutical Chemistry, Rajarambapu College of Pharmacy, Kasgaon, It was only because of his generosity, magnanimity, constant encouragement, constructive criticism, erudite guidance and unending interest, working on this project was one of the most rewarding experiences in my life. His caring and parental attitude always enlightened the way during my research work.

I am immensely thankful to our Prof. D.D. chougule, Principal, Appasaheb Birnale College of Pharmacy, Sangli for his constant encouragement and providing all the facilities required for my thesis work. I would like to acknowledge and extend my heartfelt gratitude to the Dr. (Smt) N. S. Naikwade, Vice-Principal and HOD, Pharmacology Dept, A. B. College of Pharmacy Sangli for her constant support, excellent guidance and valuable suggestions from time to time during the progress of my study and specially during screening of pharmacological activity.

I also convey my sincere thanks to Shri Babanrao Birnale, Chairman, Shri Vasantrao Banduji Patil Trust, Sangli, for providing infrastructure and all facilities required to carry out my research work successfully.

I offer my sincere thanks to Dr. M. S. Kondawar, Prof and HOD, Quality Assurance, for his guidance and help for characterization of the compounds. I am also thankful to Dr. R. R. Shah, professor and HOD of Pharmaceutics for his valuable guidance suggestions during the progress of my study and during writing of my thesis. I also take this opportunity to express my sincere thanks to Prof. S. A.
Tamboli, HOD (Diploma) A.B. College of Pharmacy Sangli, as well as Ruikar Madam, for their kind co-operation and support in carrying my work.

I owe special thanks to Dr. S. S. Patil, Principal and H.O.D of Pharmaceutics Department, Ashokrao Mane College of Pharmacy, and Dr. S.K. Mohite, Vice-principal, for his confidence and for the multitude of little advices they has given me during the course of this research work.

I am immensely special thanks to Shri. K. A. wadkar, H.O.D of Pharmacognosy for his valuable guidance and useful suggestions specially for phytochemical investigation, isolation by column chromatography and also while writing thesis.

My sincere and humble thanks to all my junior collegues Mr. S.B. Patil, Mr. S.B. Patil, Mr. S.B. Patil, Mr. S.B. Patil, Mr. Amit Ravetkar, Mr. Vishwesh Apte and Mr. K. S. Pathade. I also express a my special thanks to my Ladies staff colleges Tabbsum, Dongare and shital for their co-operation, help, inspiration and support during my research work and while writing my thesis. I am also thankful to Kranti, Jyoti Patil, Tanwade, Kamble and Londhe.

I also thanks to all my friends who were involved directly and indirectly in extending good wishes for completion of my project work, I am equally thankful to our Librarian Shri. B. B. Chougule, and other members Sachin Patil, Desai, and Gurav. Mr. S. J. Shirote, Incharge, Central Store, A. B. College of Pharmacy, Sangli and Mr. Mahendra Patil and Mr. Amol Patil for his support in providing facilities and chemicals used in the thesis. I am equally thankful to all the non-teaching staff for their kind co-operation and valuable advice, especially to Mr. D. L. Patil, JA, Tamboli, Ashwini, Mr. Kadam, Chavan, Buchade, Vasin, Judhav, Shinde, Mali and Shilpa. I express my deep gratitude towards Dr. Deo, Mission hospital, Miraj and Dr. Pankaj Joshi, Govt. Medical College, Miraj, Neha Palkar and Kore who helped me time to time for evaluation of anti-tubercular activity and by providing culture..

I am thankful to All India Council of Technical Education for their grant to purchase the BacT/Alert 3D system for evaluation of anti-tubercular activity with the help of that I use more sensitive method…

I am also thankful to the Lupin Lab, Mumbai for providing the gift sample of Isonoazide and rifampicin without which I will hardly complete my thesis work,

I express my deep gratitude towards Shri. Thite sir and Vaishali of Anchrome Lab, Mumbai. For help and support during HPTLC work of my thesis.

The credit of this thesis goes to my family. My Parents: My father-in-law and Mother-in-law… they inspired and encouraged me to take the admission for Ph.D., and supported, helped me every time during my thesis work. My mother and my father. . It’s your love that encouraged me and your optimism t
What gave me hope you are guide of my life. My brothers and my sisters for their continued support and love that has allowed me to flourish and achieve all that I am.

My utmost gratitude goes to my husband Laxmikant who is always ready to help, support. I admire his continuous encouragement, co-operation, inspiration to accomplish this goal and joyful dimension of my life. It is my privilege to express my heartfelt thanks and love to my children Vaishnavi and Janhavi who always with me and supported for completion of Ph.D. I love you all. I am greatly indebted to my family members for the extreme strength, love and understanding I received from them. I should owe each word of the present thesis to them. To my family your encouragement, love and prayers are and continue to be invaluable.

At last I am deeply indebted to all Animals whose lives were sacrificed during this research work. I hope that the precious life of the animals used during this project would not be in vain. It would contribute to the development of science in one way or another.

I almost fed with emotions while writing the acknowledgment page to thank the whole load of people who have been helpful and supportive throughout these whole Honours years.

MS. P. S. Mantri.
