At the beginning of any task, it is difficult to imagine final shape, but as many thoughts, new ideas and various pairs of beautiful hands, conglomerate, every task reaches its destination. As “Shrimadd Bhagwat Geeta” says “Every beginning has its end”, this task is to its end and it is real time to rechriser those hard earned moments. It is also a time to give thoughts to those persons, who made one way or other and acknowledge their wisdom, benevolence and patience.

It gives me pleasure in expressing my sincere gratitude to Prof. R. C. Rajak For. Director Institute of Basic Sciences, Bundelkhand University, Jhansi for being an excellent teacher, most efficient guide and above all for his wonderful nature.

I am highly obliged to Dr. Vijendra Mishra for his scientific guidance and excellent laboratory facilities he provided, without which this work would not have been possible. I am deeply indebted to him for his esteemed guidance, constructive and healthy criticism, intellectual inspiration and above all for the laborious work of going through manuscript. It is, in fact, through his genial modesty, most efficient supervision and encouragement that I have been able to complete this work. It has been indeed an enriching experience working with him. Sir, from you I have learnt not only the importance of growing into a good student but more importantly as a good human being.
I would like to thank Dr. Rishi Saxena, Co-ordinator, Department of Microbiology, Bundelkhand University Jhansi for his support and encouragement.

I am grateful to Dr. A. B. Majumdar, Prin. Scientist IGFRI, Jhansi for their constant encouragement and their valuable suggestions.

I express my indebtedness to Mr. Desh Deepak Singh for his constant encouragement and providing me help to interpret all the information for establishing the experiments smoothly.

My special thanks are to Dr. (Mrs.) Chanchal Sharma for help she rendered during the course of study.

I sincerely express my thanks to Dr. R. K. Agrawal, Head Department of Microbiology M.L.B. Medical College Jhansi.

I would like to thank Dr. Munish Kanchan Head Department of Microbiology, B.B.C., Jhansi for his valuable suggestions, help and encouragement throughout the study.

My thanks are also due to Mr. Sham G. Dhamdhere, Technical Officer Library, NRCA, Jhansi for his help.

I wish to express my very sincere thanks to Dr. Sultan Singh for his help which ensured the smooth progress of the work.

I wish to express my sincere thanks to Dr. Manoj Kumar Shrivastava, Dr. Rajesh Dabur and Dr. P. K. Pandey who stood by my side to encourage and re-energize me during my lows and highs.

I would like to thank Mr. Hakim Singh and Mr. Ravish Kumar of Bundelkhand University, Jhansi for their support at the time of need.
My sincere thanks are due to all the members of the Family of Bundelkhand University who directly or indirectly offered their assistance and help to carry out this work.

I would like to express my sense of Respect to my parents, Smt. Divya Lekha Bajpai and Sri. Jamuna Prasad Bajpai for their loving blessing and bearing the work tension with me.

My most sincere and special thanks would go to my bhaiya Er. Mayank Bajpai and bhabhi Mrs. Vandana Bajpai for their special care and love. Their contribution had been of immense importance to complete the work.

I wish to put on record my heartfelt emotions to my wife Mrs. Pallavi Bajpai for her affection, cooperation encouragement and best wishes specially during the last crucial days of my thesis.

Lastly, I thank Almighty, The Great for giving me the strength, patience and courage to carry out this uphill task. Without the grace of Almighty, nothing would have been possible.

VIVEK BAJPAI
