ACKNOWLEDGEMENT

Prior to pay acknowledgements, my humble duty is to pray God who has inspired me to take this stupendous task and kept away all hindrances during the period of research work.

I feel a great deal of pleasure to express my warm veneration and deep sense of gratitude to my reverend supervisor Dr. Neelma Kunwar (D.Sc.), Associate Professor, Department of Extension Education and Communication Management (ECM), C.S. Azad University of Agriculture and Technology, Kanpur for suggesting the problems, for her talented and inspiring guidance, most valuable suggestions and overcoming intricate problems throughout the investigation and a way of her own critically going through the manuscript.

Words can never express the indebtedness but I dare take this opportunity to pay my sincere regards to Dr. Som Narain Shukla, Director, Dean Dayal Research Institute, C.S.J.M. University, Kanpur for not only helping me but also took keen interest throughout the course of investigation. Had they not taken painstaking efforts and inspiring attitude, the research work would have not been accomplished.

I express my profound obeisance to Dr. S.M. Dingar, Associate Professor (Statistics), C.S. Azad University of Agriculture and Technology, Kanpur for rendering his help in statistical analyses of the research data. My indebtedness for his help can not be expressed in mere words.

I am highly indebted to Mr. Arun Kumar Srivastava, Assistant Statistician, Department of Crop Physiology, C.S. Azad University of Agriculture and Technology, Kanpur, for rendering his help in statistical analyses of the research data. My indebtedness for his help can not be expressed in mere words.

I bestow my heartfelt gratitude to my reverend father Mr. Saket B. Srivastava, my mother Mrs. Usha Srivastava and my husband Mr. Samir
Kumar Srivastava, for his blessing and highly indebted to my mother-in-law Mrs. Veena Srivastava and dear younger sister Priyanka and my dear younger brother Arpit for extending encouragement to me time to time in completion of this work.

I am especially thankful to my friend Miss Sonia Agarwal, for giving me moral support during entire period of study.

The manuscript was typed by Mr. A.K.S. Sengar, Office Secretary, Office of the Registrar, C.S. Azad University, Kanpur and Mr. Ajit for Computer programming and graphics of the data very efficiently and my sincere thanks are due to them.

Lastly, the co-operation provided by the all colleagues of Department of Extension Education and Communication Management of Home Science, C.S. Azad University of Agriculture and Technology, Kanpur and all the children and their parents of the study area is gratefully acknowledged.

Place: Kanpur
