Acknowledgements

I take this opportunity to express my most sincere gratitude to my research guide Brig. (Dr) R.C. Pathak for accepting me as his student. It was only because of his invaluable guidance and support given to me throughout my work, I was able to achieve, whatever I have achieved today in various dimensions of my life.

‘Thank You’ is a small word for the support given to me by Brig. (Dr) R.C. Pathak at every stage of my work. Apart from motivating and guiding he always had confidence in me. Also he was always there whenever I contacted him and taken all my requests on priority basis from his tight schedule and important engagements. Without his infallible and painstaking guidance, especially his quality of taking quick decisions, the work would not have seen the light of the day. The affection and warmth received from his family is also gratefully acknowledged.

I thank Tilak Maharashtra University and Vice-Chancellor Dr. Deepak J.Tilak for giving me the opportunity to do research and providing necessary resources and the environment.

I am greatly obliged to Dr. Sarika Sharma of GGSIP University for her most valuable guidance and constructive suggestions during the study. She has meticulously gone through the contents of this work and made it possible to complete it in time in the present shape.
I place on record my special thanks to Prof. T.J. Sawant, Founder Secretary, Jayawant Shikshan Prasarak Mandal, Pune for extending all possible help under his command and control for completion of my work.

My sincere thanks to my sister, Prabha who took care of all the administrative work at the institute and kept me informed about every update related to me.

My deep feelings are for my parents and family members, who were motivating factor behind the whole work and inspired me throughout. I want to thank my parents for supporting me from time to time. I also want to thank my family for adjusting with me while they were deprived of the attention they deserved.

I am grateful to all professional peers, friends, and all others who have directly or indirectly contributed to this research and helped me in completing this study.
