His being jolly at all the times especially during last phase of my Ph.D made me able to ease my stress. My special gratitude is due to my sister, Vandana for her loving support. All the years of effort have only been possible because of your belief in my abilities. My nephews, Yash, Samiksha and Shaurya have always been a source of delight. I always remember the holidays / festivals, when they called me up and asked when I will come. They have lost a lot due to my research. I achieved this goal only due to the constant love, encouragement and support I have got from all of you.
