ACKNOWLEDGEMENT

The author expresses a deep sense of gratitude and sincere thanks to research supervisor Dr.D.Senthilkumar, Professor, Department of Mechanical Engineering, Sona College of Technology, Salem, for his keen interest, valuable guidance, meticulous supervision, tireless effort, motivation and constant encouragement given for the successful completion of the research work.

The author thanks Dr.R.Venkatesan, Head, Department of Mechanical Engineering, Sona College of Technology for providing the necessary moral support, review and guidance.

The author thanks Doctoral committee members Dr.R.Vadivel and Dr.T.Alwarsamy for their remarkable suggestions and motivation in this research work.

The author also wishes to thank Technicians, Thermal Engineering Laboratory, Sona College of Technology, Salem for their support to conduct the experiments successfully.

The author would like to thank his parents Mr.P.Kuppusamy and Mrs.K.P.Saraswathy, for their continuous support and encouragement throughout the studies. With their unwavering support, love and understanding, the author could complete this journey.

(K.RAJKUMAR)
