ACKNOWLEDGEMENT

The great number of people, whose contributions in assorted ways to this theses, right from its genesis deserved special mention. Here, I would like to remember and record my reverence to all of them.

I have been indebted in the preparation of this thesis to my supervisor, Dr G. Muraleedhara Kurup whose patience and kindness, as well as his academic experience, have been invaluable to me.

I greatly remember and sincerely thank Dr. Emilia Abraham (NIIST, Thiruvananthapuram) for her intellectual support and critical contributions which helped me to plan and sculpture this work.

I express my deep sense of gratitude to Dr. Jyothis Mathew, Director, School of Biosciences, Mahatma Gandhi University for his consistent support to the completion of this work.

I express my whole hearted appreciation and gratitude to all the teaching and non-teaching staff of School of Biosciences for all their support and consideration towards me.

I cannot belittle the patience and timely support and services provided by numerous intelligent personalities like Dr. Sreenivasan and Mr. Raman Hari (Sree Chithirathirunal Institute of Medical Science and Technology) for HPLC analysis, Dr. Aswini Agarwal (IIT, Delhi) for molecular weight analysis, Dr. Arunan Chandravarkar (School of Chemical sciences, Mahatma Gandhi University, Kottayam) for FTIR and SEM-EDX analysis, Mrs. Viji (NIIST, Trivandrum) for MALDI-TOF analysis, Dr. Ibnu Saud (IIRBS, Mahatma Gandhi University, Kottayam) for NMR analysis. It is the reflection of their technical knowhow, incomparable efficiency and professional knowledge which helped me to complete this work.

I gratefully thank Dr. Ramdas Kuttan (Amala Cancer Research Centre, Thrissur) for his kind support. I would like to remember Dr. Gini C. Kuriakose (Indian Institute of Science, Bangalore) for her constant inspiration, unflinching encouragement and exceptionally inspiring support. With immense pleasure I acknowledge all her trials related to the human cell line works.
I would also acknowledge Dr. Joby George and Dr. Raveendran (Veterinary Surgeons, District Veterinary Hospital, Kodimatha, Kottayam) for their valuable support.

I am very grateful to Dr. Sunil Kumar for his valuable suggestions in NMR and COSY result interpretation.

The power of knowledge through words I imbibed was from various libraries like Mahatma Gandhi University, Kottayam; National Institute of Integrated research in Science and Technology, Thiruvananthapuram; Central Marine Fisheries Research Institute, Cochin, National Institute of Oceanography, Cochin; Central Institute of Fisheries Technology, Cochin; Cochin University of Science and Technology, Cochin.

I am much indebted to Dr. Anil Kumar (Mahatma Gandhi College, Thiruvananthapuram) for his constructive comments on this thesis.

I also record my sincere thanks and gratitude to my lab mates Mrs. Jiji Thomas, Mr. Pratheesh, Mr. Abraham and Mr. Rajesh for providing invaluable research assistance, when I was in need.

I would particularly thank my friends especially Mrs. Prathibha, Mrs. Asharani, Ms. Shanthiprabha, Ms. Sindhu E.R, Dr. Aju K. Ashok, Mrs. Sharrel, Mrs. Aparna Balakrishnan, Ms. Savitha, Mrs. Anu Kuruvila, Mr. Athul Sandheep and Mr. Abhilash for their contagious enthusiasm and unfailing optimism, meticulous attention and patient good humors. I am thankful to all the research scholars of School of Biosciences, School of Environmental Sciences, School of Chemical Sciences (Mahatma Gandhi University) and Amala Cancer Research Centre, Thrissur, Kerala.

Sincere words of gratitude to the staff of Minitek computers for DTP work of the thesis.

Been a journey in the company of my family without whose words and versus, support and enthusiasm I couldn’t have come this far. I am indebted to them in all ways. Here I place on record with ecstasy my gratitude and thanks to all those faces I came across in this journey.

Shonima Govindan M.
