20. You had to give masturbation to someone in your childhood though you did not want to.
    Never  Once  Rarely  Occasionally  Frequently
Appendix H

SEXUAL BEHAVIOUR INVENTORY

This questionnaire is designed to measure sexual behaviour in adolescence. The purpose of this study is to understand the factors that work as formative/regulative agent in the development of sexual behaviour in adolescence. The specificity of this area is yet to be discovered. The information you provide is an important piece of this puzzle. Through understanding this, psychologist, counsellors etc can come to a better understanding of how to influence adolescent sexual attitudes and prevent risky adolescent sexual behaviour. Please be assured that your identity is not revealed anywhere in the questionnaire. Be honest and good luck. If participation in this study has brought up any thoughts or feelings that you wish to discuss, feel free to contact the School of Behavioural Sciences, M G University, Kottayam.

1. Have you ever hugged somebody from the opposite sex with an intention of sexual gratification?
   - Never
   - Once or twice in life
   - Sometimes in a year
   - Sometimes in a month
   - Sometimes in a week
   - Every day

2. Have you ever kissed somebody from the opposite sex with an intention of sexual gratification?
   - Never
   - Once or twice in life
   - Sometimes in a year
   - Sometimes in a month
   - Sometimes in a week
   - Every day

3. Have you ever fondled somebody from the opposite sex with an intention of sexual gratification?
   - Never
   - Once or twice in life
   - Sometimes in a year
   - Sometimes in a month
   - Sometimes in a week
   - Every day

4. Have you ever given genital sexual stimulation to someone from the opposite sex?
   - Never
   - Once or twice in life
   - Sometimes in a year
   - Sometimes in a month
   - Sometimes in a week
   - Every day

5. Have you ever masturbated with hands?
   - Never
   - Once or twice in life
   - Sometimes in a year
   - Sometimes in a month
   - Sometimes in a week
   - Every day

6. Have you ever received genital stimulation from the opposite sex?
   - Never
   - Once or twice in life
   - Sometimes in a year
   - Sometimes in a month
   - Sometimes in a week
   - Every day

7. Have you ever had sexual intercourse?
   - Never
   - Once or twice in life
   - Sometimes in a year
   - Sometimes in a month
   - Sometimes in a week
   - Every day

8. Have you ever masturbated with an object?
   - Never
   - Once or twice in life
   - Sometimes in a year
   - Sometimes in a month
   - Sometimes in a week
   - Every day

9. Have you ever talked about sex acts to someone from the opposite sex?
   - Never
   - Once or twice in life
   - Sometimes in a year
   - Sometimes in a month
   - Sometimes in a week
   - Every day

10. Have you ever touched other people’s sex parts?
    - Never
    - Once or twice in life
    - Sometimes in a year
    - Sometimes in a month
    - Sometimes in a week
    - Every day

11. Have you ever engaged in giving masturbation to someone?
Never/ Once or twice in life / Sometimes in a year / Sometimes in a month / some times in a week/ every day

12. Have you ever had any sexual physical fondling with someone from your same sex?
   Never / Once or twice in life / Sometimes in a year / Sometimes in a month / some times in a week/ every day.

**PEER INFLUENCE INVENTORY**

The Peer Influence Inventory is a tool to assess the extent of peer influence on an individual's behavior. It is used to evaluate the degree of influence that peers have on an individual's actions and decisions. The inventory consists of 20 statements, each followed by four response options: Never, Sometimes, Often, Almost Always. The purpose is to help individuals understand the extent to which they allow their peers to influence their behavior. The inventory includes questions about various aspects of peer influence, such as feelings of obligation to go along with peers, trying to change peers' behavior, trying to change the situation around peers, and trying to change the rules or laws. The results can be used to identify areas where an individual may be particularly susceptible to peer pressure and to develop strategies to reduce the influence of peers on their behavior.
2. "Religious Adherence Inventory" has been translated by the Department of Public Health to better understand the demographics and religious affiliations of the population.

3. This inventory is divided into several sections, each focusing on different aspects of religious adherence.

4. The sections include questions on specific religious practices, beliefs, and affiliations.

5. The responses are collected and analyzed to provide insights into the religious landscape of the community.

6. The data collected from this inventory will be used to inform public health interventions and policies.

7. Religious Adherence Inventory

8. Questions are posed to individuals to gather information about their religious practices and affiliations.

9. The responses are compiled and analyzed to provide a comprehensive overview of religious adherence in the community.

10. This information is crucial for developing effective public health programs and policies.

11. Religious Adherence Inventory

12. The inventory is designed to be anonymous, ensuring the privacy and confidentiality of the respondents.

13. The data collected will be used to identify areas of need and to develop targeted interventions.

14. Religious Adherence Inventory

15. The inventory is an important tool for understanding the religious landscape and its implications for public health.

16. Religious Adherence Inventory

17. This information is essential for planning and implementing effective public health strategies.

18. Religious Adherence Inventory

19. The inventory helps in identifying the strengths and weaknesses of religious adherence in the community.

20. Religious Adherence Inventory

21. The data collected will be used to inform and guide public health initiatives.

22. Religious Adherence Inventory

23. The inventory is an ongoing process to ensure continuous improvement in public health strategies.

24. Religious Adherence Inventory
INVENTORY TO MEASURE SEXUAL ABUSE
