ACKNOWLEDGEMENTS

A major research project like this is never the work of anyone alone. The contributions of many different people, in their different ways, have made this possible. I would like to extend my appreciation especially to the following.

I am profoundly grateful to Prof. K.B.Chandra Sekhar and Dr. M. Srinivasa Rao, my Research Supervisor and Co-Supervisor respectively, for their constant guidance and encouragement throughout the work.

I am indebted to Dr. K. Anji Reddy, Chairman of Dr. Reddy’s Laboratories Ltd. for giving me an opportunity to work in Dr. Reddy’s and upgrades my academic qualifications leading to a Ph.D. degree.

I would like to express my deep and sincere gratitude to my advisor Dr. Manojit Pal whose dedication, guidance are remarkable.

My special gratitude and thanks to Dr. Markandeya Gupta for his continuous encouragement.

Everyone that I have had the pleasure of interacting with during my stay at CPS has contributed to this document in some form. I am truly thankful to all of you.

This thesis would not have seen the light of the day without the blessings of my parents Mr. TDS Gupta and Mrs. Raja Ratnam.

It would not have been possible to complete the thesis work without the support and patience of my spouse Mrs. Satyavani and loving sons Viswajith and Vishnu Vardhan.

T. Bhaskar Kumar
