ACKNOWLEDGEMENT

I am heartily thankful to my supervisor, Dr. Chavan Chetan Uttamrao, Assistant Professor, Gokhale Education Society’s College of Education and Research, Parel, Mumbai, whose encouragement, guidance and support from the initial to the final level enabled me to develop an understanding of the subject and for the completion of this thesis. I am whole-heartedly grateful to Dr Snehlatha Shekhawat Coordinator, and Coordinator and Head, Department of Education, JJJT University, Jhunjhunu, Rajasthan for her critical comments and useful suggestions at various levels of my work. She was immensely gracious in giving her valuable time whenever I wanted to discuss and gave technical inputs. I express my sincere gratitude to all the personnel of the Government of India, Government of Maharashtra, MPSP and UNICEF for their valuable support, guidance and inhibited cooperation towards successful completion of the research study. It gives me immense pleasure in acknowledging the help I received from the members of the School Management Committees, the head teachers, stake holders, civil society partners and other community people. It is needless to say that without their help, the Study would have been more open to criticism.

I would fail in my duty if I don’t acknowledge my deep sense of gratitude to my wife Kavita for her sacrifice of her valuable time and technical inputs for this report and my in laws Smita and Arun for taking pains and provide me moral support and depriving them of my love and personal attention due to my pre-occupation with the present work. I really appreciate their sacrifice. I would also like to record my appreciation for Liladhar, Gajanan from MPSP Mumbai for their professional advice on data, computer related technical support of this research report.

Lastly, I offer my regards and blessings to all of those who supported me in any respect during the completion of the project.

Siddheshwar
