

LIST OF TABLES

Tables No.	Title	Page No.
01	Means, SDs and t-values of mental health in two levels of self-concept (N= 400)	134
02	Mean, SDs and t-values of mental health in two levels of emotional intelligence (N= 400)	138
03	Mean, SD and t-value of mental health between rural and urban students (N=400)	140
04	Table-4: Means, SDs and t-values of mental health of male and female sample (N=400)	143
05	Mean, SDs and t-values of mental health in different faculties of study (N=400)	146
06	Mean, SDs and t-values of mental health in different religion of study (N=400)	150
07	Influence of independent variables on total mental health (ANOVA) F-ratio (N = 400)	154
08	Influence of independent variables on mental health dimension PSE (ANOVA) F-ratio (N=400)	158
09	Influence of independent variables on mental health dimension: POR (ANOVA) F-ratio (N = 400)	160
10	Influence of independent variable on mental health: IOP: (ANOVA) F-ratio (N= 400)	161
11	Influence of independent variables on mental health dimension: AUT: (ANOVA) F-ratio (N=400)	163
12	Influence of independent variable on mental health: GOA: (ANOVA) F-ratio (N=400)	165
13	Influence of independent variables on mental health dimension; EM: (ANOVA) F-ratio (N=400).	166
14	Showing correlation co-efficient between independent and dependent variables	168
