### Chapter I- Introduction

1.1 Statement of the Problem 1

1.2 Objectives 5

1.3 Research Questions 6

1.4 Hypotheses 6

1.5 Data Base 7

1.6 Sampling Design 7

1.7 Major attributes collected from the primary survey for the study 10

1.8 Methodology 11

1.9 General Profile of the Sample Districts, Blocks, and Villages 15

1.10 An Introduction to the communities of the Sample Population 35

1.10.(i) Major Communities 36

1.10.(ii) Minor/Marginal Communities 41

1.11 Limitations of the Study 44

1.12 Design of the Study 45

### Chapter II- Survey of Literature

II.1 Introduction 48

II.2 Concept of Health, Disease, and Remedy in tribal Chotanagpur 48

II.3 Morbidity 49

II.4 Nutritional Status 50

II.5 Health Care Utilisation 51

II.6 Socio-economic Development and Health Condition 53

II.7 Socio-Economic Development: Its Interlinkages with Health 54

II.8 Methodological Issues 57

II.9 Government Intervention 58

II.10 Health Finance and Critique of the Government Health Services 64

II.11 Liberalisation and Health 67

II.12 Tribal Sub-Plan And Health 68

II.13 Tribal Development Plans and Health in Bihar 69

II.14 Research Gap in Socio-economic Development and Health of the Scheduled Tribes of Chotanagpur 70

### Chapter III- Morbidity Pattern

72-107
III. 1 Introduction 72
III. 2 Mortality Patterns 74
III. 3 Morbidity Profile: An Overview 75
III. 3.(i) Proportion of Ailing Population (PAP) 79
III. 3.(ii) Morbidity Prevalence Rates (MPR) 79
III. 4 Nature of Disease Prevalence with Location and Availability of PHC 80
III. 5 Composition of Diseases 82
III. 6 Differentials in the Disease/Morbidity Prevalence among the Tribes 96
III. 7 Morbidity Prevalence Rates by Background Characteristics 102
III. 8 Conclusion 104

IV. Health Care Utilisation 108-148
IV. 1 Introduction 108
IV. 2 Curative Care 109
IV. 2.(i) First Source of Treatment: Inter Regional Pattern 109
IV. 2.(i).a Comparative Study of the Sources of First Treatment 116
IV. 2.(i).b Health Care Behaviour of Tribal Communities: Inter Tribal Variation 118
IV. 2.(i).c Health Care Behaviour of Tribal Communities: Intra-Tribe Pattern 118
IV. 2.(ii) Utilisation of Sources of Treatment other than First Preference of Sources of Treatment 120
IV. 2.(iii) Reasons for Non-Treatment or the Preference of Sources of Treatment other than Modern Medicine in the Tribal villages of Chotanagpur 126
IV. 2.(iii).a Inter-Tribe Pattern. 131
IV. 3 Preventive Care 132
IV. 3.(i) Antenatal Care 132
IV. 3.(ii) Place of Delivery (Institutional/Non-Institutional Delivery) 134
IV. 3.(iii) Medical Attendance at Birth 135
IV. 3.(iv) Child Immunisation 137
IV. 4 Health Care Utilisation by Background Characteristics 138
IV. 5 Conclusion 144

Chapter V- Nutritional Status 149-194
V. 1 Introduction 149
V. 2 Nutrition among the Adult Tribal Population of Chotanagpur: Spatial Pattern 153
V. 2.(i) Inter-Tribe Profile of Malnutrition 159
V. 3 Nutritional Status among the Tribal Children 162
V. 3.(i) Comparison of Indian Children aged 1-17 Years (ICMR Standard) with the NCHS Standard 163
V. 3.(ii) Comparison of the Sample Tribal Children with the Total Indian Children (ICMR Standard) 164
