ACKNOWLEDGEMENT

It is indeed a great privilege to express my deep sense of gratitude and my hearty thanks to my supervisor, Dr. G. Thanigaiyarasu, Professor and Head, Department of Mechanical Engineering, for his guidance and constant encouragement during each stage of this research. He has been a perennial fountainhead of kindness, an inspiring friend, philosopher and guide to make this work a reality. I would especially like to thank him for his extensive comments, reviews, suggestions on the research work, as they have helped improve my writing skills and to present my research in a much better way.

I have a great pleasure in thanking my doctoral committee members, Dr. G. Muthuverappan, Professor in Mechanical Engineering, IIT Madras, and Dr. K. Srinivasan, Professor in Mechanical Engineering, AU-FRG/Anna University. all their valuable guidelines, feedback and recommendations have ensured the quality of my research work.

I take this opportunity to thank Dr. V. Ramamurti, Professor of IIT Madras and INSA, Senior Scientist, of Anna University, for his valuable support and direct instructions especially in the vibration and dynamic part of this work.

Finally, I dedicate this work to all of you, my lovely mother and my great father for their moral support, my brothers and my sisters for their patient, support and affection, my colleagues, my Iraqi accompanying student and friends.

ALI RAAD HASSAN
