Acknowledgements

Numerous people have made this thesis possible, in so many ways, that a book can be written about it!

None of this would have been possible without the guidance of my mentor Dr Lalji Singh, who encouraged me to follow my passion into the world of wildlife genetics. In spite of his busy schedule he has always found time to listen to my rambling ideas and helped convert them into coherent experiments. And in particular, Lalji's mentoring has taught me to think independently and fearlessly which is far more important than anything else. I don't have the words to thank him!

I would like to thank Dr S Shivaji for providing support in several ways, especially for listening to and advising on logistic problems which crop up with amazing inevitability before field work.

Special thanks to Dr AJ Rachel for encouragement.

The Forest Departments of Andhra Pradesh, Karnataka, Maharashtra, Uttar Pradesh and Tamil Nadu issued necessary permits for sample collection. I thank the animal trackers who helped me with my sample collections; they are the unsung heroes of conservation in India.

To the rightful inhabitants of the jungle, I thank them for tolerating my intrusion into their territories.

Dr MW Pandit, Dr D Kasbekar, Dr Thangaraj, Dr TRK Murti, Dr Ramesh Aggarwal and Dr R Sarkar read my manuscripts and provided constructive suggestions.

Dr R Sukumar, Centre for Ecological Sciences, Indian Institute of Science extended facilities at the IISc field station in Mudumalai Wildlife Sanctuary. Dr Ajay Desai took the time out to explain the details of tiger ecology and mark recapture analysis.

Billy Arjan Singh, 'Honorary Tiger', author and wildlife conservationist will forever be an inspiration. I will always cherish my stay at 'Tiger Haven', Dudhwa Tiger Reserve.

Dr Karthik Sankar (Indian Institute of Science), Dr Pascal Gagneux (San Diego Zoo), Abi Tamin Vanak, Suresh "Monal" provided many useful suggestions and ideas when this work was at its inception.

Vinod Jhambhule and Manoj Bandakkar's (Tiger Research and Conservation Trust) valuable inputs and enthusiasm at the camps at Tadoba-Andhari Tiger Reserve made the population estimation work possible.
Imran Siddiqui of the Hyderabad Tiger Conservation Society made the GIS maps of Tadoba-Andhari Tiger Reserve and also taught me how to read toposheets. Mrs Vinoba Hegde sheltered me, a complete stranger, at her home in the BRT Wildlife Sanctuary.

I thank Giridharan and Nageshwar Rao of Digital Imaging; Hanumaprasad, Kishore Joshi, and Joseph of Fine Biochemicals; Mehar Sultana and N Nagesh of Oligo-synthesis and DNA sequencing. I would like to thank Suryanarayangar for keeping the lab in top condition and tirelessly preparing buffers and solutions. Visvanath and Hanif have cheerfully helped in the lab whenever required.

To the children of Don Bosco Navajeevan Home for Street Children, bottomless thanks for unconditional love, laughter and spur-of-the-moment dance sessions. These young heroes are an inspiration.

People who have helped me at various points of time: Dr Anju Singh, Mrs Uma Prasad, Mr AG Reddy, Rupa Bhattacharya, R Phanindranath, B Sridevi, Raman Agarwal, Unapathy, Sadanand, Rajendra Kumar, Raj Kumar, Rama Devi, Uday Divi, Manjunath Joshi, YM Naidu, AS Sridhar, TP Velavan, Krishna Kumar, Vikrant Kumar, Ganesh Bagler, T Kathiresan, A Vanni Rajan, T Lavanya, M Shiva, Srihari Reddy, Hardeep Singh, Manjunath Joshi, S. Monika, Aruna Bala, Sasi Bushan, Nagabhusana, Kauhalendrana ‘KT’ Tripathi, Nishant ‘Yeah Baby’ Jain, Gurudatta BV, Geetha V, Ramprasad OG, Rajesh ‘Nature’ Gupta and Rama Haritha P, Waseem Akhtar, Asif Siddiqui, M Akhil, Phani Bhagav, Matigavhatta Chaitra, Gonzalez Griebenow and Vinita Gowda....the list is endless and am truly sorry if I have missed anybody out!

Amritha ‘YamYam’ was an associate in many an adventure in the Urban Jungles of Hyderabad. Anjali ‘Yunjali’, has listened patiently to my endless rants. Hemakumar ‘HeKuRe’, good-naturedly put up with my inane banter. Arun ‘AK-47’ has given me lots of valuable advice. Ashwin ‘Monkey’ shared rock music CDs. Avinash ‘Uncle’ has been a constant morale booster. Prasad provided useful opinions on microsatellite markers and Animal Planet. Anuradha’s astute discussions on conservation were a delight. Amit ‘Double A-gent’ discussed flying machines. Albert ‘Aallbatt’’s quiet presence was reassuring.

My canine friends Kalu, Michael, Guddi, Dauncey, Jimmy, Mottu, Doggy; feline friends Kato, Motay, Bango, Kanchu, and Keechu were a constant source of delight. Alas none of them are here today!

My grandpa kindled an interest right from my kindergarten days, in the natural world through stories of his own (unpublished) creation about the “Adventures of Sabre the Shark”. My late Grandma, instilled the spirit of adventure in me!

Partha, Partner-in-Mischief, Emotional Anchor and my pillar of strength! Vijay Gupta provided moral support and intellectual inputs at critical moments.
My father and mother nurtured an interest in the natural world and science and put up with an endless profusion of my feathered and four-legged friends throughout my childhood. Without their support, love and guidance I could never have realized my dream. This thesis is for my Mother and Dad.
