ACKNOWLEDGEMENT

Acknowledgement is gratefully given to my guide, Dr. J.N. Shah, Reader and Head of the Department of Education in the Gujarat University, Ahmedabad, for his ever encouragement, positive attitude and inspiring guidance. Without his support, this thesis would not have been the light of the day.

My deep sense of gratitude is due to Dr. Raymond B. Cattell and Dr. Richard W. Coan - the authors of the Early School Personality Questionnaire whose monumental work provided the basic of this research.

My sincere thanks to all the principals of the schools and their pupils for their cooperation in data collection.

Finally, my gratitude is due to all the friends and other family members who helped and encouraged me in my work.

Ahmedabad, December, 1997
