## Contents

**Chapter 1**  
**Introduction**  
1.1 The problem  
1.2 Review of literature  
1.3 Research gaps emerging from the literature  
1.4 Objectives  
1.5 Theoretical framework  
1.6 Methodological framework  
1.7 Scheme of the thesis  

**2 Trends in Area, Production and Productivity**  
2.1 Agricultural scenario in Kerala  
2.2 A note on the region-wise analysis of coconut in Kerala  
2.3 Trend equations  
    Conclusion  

**3 Coconut Cultivation in Kerala: A Cross-Sectional Analysis**  
3.1 Sampling design  
3.2 Tool of the study  
3.3 Locale and period of study  
3.4 Basic information on the study area  
3.5 Limitations of primary data  
3.6 Coconut farming in Kerala: A comparative analysis across regions  
    Conclusion  

**4 Costs, Returns and Profitability of Coconut Cultivation**  
4.1 Concepts and definitions  
4.2 Cost of cultivation of coconut  
4.3 Computations of returns from coconut cultivation  
    Conclusion  

**5 Productivity of Coconut Cultivation in Kerala**  
5.1 Productivity analysis  
5.2 Measurement of productivity  
5.3 Total factor productivity index  
5.4 Constraints analysis  
    Conclusion  

**6 Summary and Conclusion**  
Findings and Recommendations  

**Appendices**  

**Bibliography**
