ACKNOWLEDGEMENTS

The success and final outcome of this thesis required a lot of guidance and assistance from many people and I am extremely fortunate to have got this all along the completion of my research work. Whatever I have done is only due to such guidance and assistance and I would not forget to thank them.

It is my great pleasure to acknowledge my research supervisors Dr. Alakananda Hajra and Dr. Adinath Majee who introduced me to a fascinating realm of chemistry. Their invaluable guidance, constant inspiration, unending support and constructive criticism helped me a lot to focus my views in proper perspective. I am grateful to them for giving me a liberty to carry out my research work throughout the course of this programme. My deepest personal regards are due for them forever.

I am also grateful to Prof. I. N. Basumallick, Prof. P. Sarkar, Prof. A. K. Das, Dr. B. K. Dalui, Dr. B. Mandal, Head, Dept. of Chemistry, and all the faculty members and non teaching staffs of Department of Chemistry, Visva-Bharati. I am thankful to the Indian Association for the Cultivation of Science, Kolkata, Indian Institute of Chemical Biology, Kolkata for recording $^1$H NMR, $^{13}$C NMR.

I express my heartiest thank to my friends Bijoy, Samiran, Shyam, Bidhan, Trilocon and Jhuma for their selfless help and support whenever I had a problem in each and every step of my life.

Here, I want to express my grateful thanks to Animesh Mandal, Toffajal Hossain and Rakhi Khan for their kind co-operation and encouragement which help me in completion of this thesis.

It is my high time to acknowledge my indebtedness to my fellow colleagues Dr. Shrishnu Kumar Kundu, Anupam Roy, Dr. Dhiman Kundu, Dr. Matiur Rahman, Sougata Santra, Avik Kr Bagdi, Shubhanjan Mitra, Monoranjan Ghosh, Kamarul Monir and Subhajit Mishra for their whole hearted and helpful co-operations during my research work in the laboratory. I would like to thank Sharmistha Urinda, Md Samim, Bastab Das & other research scholars of this department for their help and support during my research work.
It gives me great pleasure to thank my sisters for their love, unfailing support, tremendous patience, trust and encouragement they have shown in their own way during my long period of studies.

I wish to thank my parents for their undivided support and interest who inspired me and encouraged me to go my own way, without whom I would be unable to complete my research work and finally to God who made all the things possible...
