ACKNOWLEDGEMENT

This work would not have been possible without whole-hearted support of many people. First and foremost thank to my adviser Prof. I.Ramesh Babu for his patience, guidance and support.

I would like to thank Prof A.V. Dattatreya Rao, Principal, University College of Sciences, ANU, for providing me an opportunity to carry out this research work in Acharya Nagarjuna University.

I would like to thank Dr. K.Gangadhara Rao, Head, Dept. of Computer Science and Engineering, Dr. R.Satya Prasad, Associate Professor, Dept. of Computer Science and Engineering and other members of Dept. of Computer Science and Engineering for their invaluable suggestions in this research work.

Next I would like to thank my friends for all their help and support during my research. Next I would like to express my sincere gratitude to my family members, who were beside be all the time.

I would like thank to research community in general, Acharya Nagarjuna University for providing the resources which made this research possible.

S.V.Naga Srinivasu
