Acknowledgement

At the outset, I wish to pay my most humble obeisance to the almighty God for giving me the energy, inspiration and wisdom to take up this task. I have been his guiding hand that has brought this task to a successful completion.

I do not wish exclude anyone who has contributed to this work. It is however, to mention everyone by name, as I certainly would forget some of them. Those who are not mentioned, but have shared parts of work, should not that I thank all of them for everything they have done to, or together with me. I wish to express my gratitude to those who may have contributed to this work, even though nameless.

I am highly obliged to avail this opportunity of offering thanks to my guide, Professor B. T. Thaker, Department of Chemistry, Veer Narmad South Gujarat University, Surat for this able and inspiring guidance, enthusiastic suggestion, intelligent and through provoking ideas throughout my study. The work would have never taken this shape.

I avail this opportunity to offer my sincere thanks to Dr. P. Bahadur, Professor and Head, Department of Chemistry, Veer Narmad South Gujarat University, Surat for encouragement and providing me all the necessary facilities to carry out the experimental work. I also express my thanks to teaching and non-teaching staff of Chemistry Department, Veer Narmad South Gujarat University, Surat for their co-operation and help.

I heartily convey my thanks to my madam Mrs. Nalini Thaker for her love and motivation during my study. I can’t forget to thank and appreciate my research colleagues, Bhavesh Patel, Jignesh Kanojiya, Yaxesh Dhimmer, Navnit Chothani, Niraj Patel and Rekha Barvalia for their invaluable help and encouragement.
I admire the kind cooperation and inspiration from my friends at different labs in the Department, who made my research work so intellectually, stimulating and enjoyable. A special note of thanks of my friends Mimansha Mali, Sunil Patel, Shreyas Patel, Parimal Patel, Yogesh Patel, Vikunjana, Himanshu, Masterbhai for their invaluable help in my research work.

The whole credit of this work goes to my family, my father Mr. B. D. Solanki who inspired for his immense interest and constant encouragement, to my mother Late Mrs. Pushpa B. Solanki and my sister Mayuri who shouldered many domestic difficulties during the research work. Last but not list, I wish to remember with a deep sense of gratitude and encouragement gives to me by my sisters and my jijajies throughout the course of my research work and for their persistent encouragement.

Dipali Solanki
