ACKNOWLEDGEMENT

The author expresses immense depth of gratitude to the research supervisor **Dr. R. Gopalakrishnan**, Lecturer, Department of Physics, Anna University, Chennai for his inspiring guidance, scholarly valuable advice and motivation to carry out the investigation.

The author is extremely thankful to **Prof. P. Ramasamy**, Dean (Research) SSNCE for his scholarly advice and encouragement during the course of this investigation. The author is extremely grateful to the **Management** of Sri Venkateswara College of Engineering, Sriperumbudur, for the sponsorship and continuous support provided for this programme.

The author is grateful to the doctoral committee members **Dr. P. Maruthamuthu**, Former Vice-Chancellor, Madurai Kamarajar University, Madurai and **Dr. K. Ramamurthi**, Professor, School of Physics, Bharathidasan University, Tiruchirapalli, for their words of encouragement. The author thanks **Prof. G. Bhagavannarayana**, Head, Materials Characterization Division, National Physical Laboratory, New Delhi, for the scientific support.

The author thanks **Dr. P.K. Palanisamy**, Head, Department of Physics, Anna University, Chennai, for his constant encouragement and useful discussions. The author expresses his sincere gratitude to all the staff members of Physics Department, Anna University, Chennai, for their constant encouragement. The author is glad to express his thanks to his research colleagues **Mr. P. Srinivasan**, **Mr. T. Kanagasekaran**, **Ms. P. Mythili**, **Mrs. Stella Mary**, **Mrs. S. Shahil kirupavathy**, for their whole hearted support and encouragement throughout the research period and his research seniors **Dr. N. Vijayan**, **Dr. R. Ramesh Babu**, **Dr. M. Gunasekaran** and **Mr. K. Sethuraman**. The author records his profound gratitude to his parents, wife and son, whose constant encouragement and help were the guiding spirit behind this work.

**A. ARAVINDAN**
