ACKNOWLEDGEMENT

At this moment of accomplishment I would like to thank all those people who made this task possible and contributed in many ways to the success of this study and made it an unforgettable experience for me. First of all it is subject of pride and pleasure to express my profound sense of respect, deep gratitude and indebtedness to my esteemed research supervisor Dr. Dinabandhu Sahoo, Department of Botany, University of Delhi, for his keen interest, untiring efforts, cooperation, invaluable guidance, persistent encouragement and constructive criticism throughout the present investigation. He never hesitated to answer my stupid queries. My increased spectrum of knowledge in this field is the result of his constant supervision and direction that has helped me to absorb high quality information.

I would like to acknowledge the overwhelming support from Prof. S.C. Bhatla, Head, Department of Botany, University of Delhi, for constant cooperation and for providing necessary facilities during course of study.

No words of appreciation would be enough to Dr. Vishnu Bhatt and Dr. P.L. Uniyal, my research advisors for their valuable suggestions during my research work. I am also grateful to Prof. R. Rengasamy, Director, CAS in Botany, University of Madras and Prof. B.B Chaugule, former Head of the Department, Pune University for their hospitality and immense help during field trips. I express my great sense of gratitude to Prof. Arvind Lali, Head, University Institute of Chemical Technology, Mumbai and Prof. R.C. Kuhad, Department of Microbiology, University of Delhi, South Campus, for allowing me to work in their laboratory.

I extend my grateful thanks to Dr. Pooja Basweja for her suggestions, well appreciation and discussing the diverse topics during my research work. I also appreciate her patience to bear with my blunder. I have great privilege to record sincere thanks to my seniors and colleague, Dr. Pranita Jaiswal, Dr. Saswati Nayak, Dr. D. Sreekanth, M. Arunjit Singh, E. Geetanjali, Gaurav Kumar, Salam Sonia, Nitin, Arvind, Vivek, Priyanka Verma, Shivani Mishra and Tashi Angmo for valuable suggestions and encouragement during drafting and redrafting of manuscripts.

I express my gratitude to Ms. Neena for HPLC, Mr. S.K. Sharma for AAS facility, Ms. Smily, Senior Technical Assistant (USIC) for FTIR, Elumalai, P. for CHNSO analysis, Mr. Noor Mohammad (CSL) and Mr. S. K. Dass for photography. My sincere thanks are also due to Mr. Mukesh for his indefatigable help and being jack of all trades for me throughout the period of my stay in the department.
On the occasion I would like to convey my heartfelt thanks to Dr. R.M. Johri with other teaching staff and Research Scholar of MMH college GZB and Dr. Rajeev Kumar Sharma (SSO, PLIM, Ghaziabad) for their dynamic and vigilant guidance and cooperation during my PG studies.

With due regards and sublime obeisance, I acknowledge the blessings, affection, inspiration and moral boosting by my parents, my in-laws, my brother Mr. Mitrasain, and other family members for their constant encouragement which enabled me to take the challenging task successfully in life. I thank them from depth of my heart for showing faith in me to allow me to make my own choice. It is them who molded me to become a positive, independent individual. What I owe to my love Sanorita is beyond written words. Her help started from the day when we met first and has never stopped. I am very thankful to her for being patient for correcting me and for her trust in me. She is my best friend who not only care for my feelings but emotionally made me strong to be good and patient during toughest phase of my life. I acknowledge cute smile and affection given by my charming niece Garima during the period of my research work, which had always relived me from my work pressure.

My sincere thanks to my seniors and my friends Dr. Ravindra, Dr. Kuldeep, Dr. Anita, Dr. Anil, Satish, Shiv, Dr. Reeta, Pamil and other research scholars of Department of Botany; Nandkishore, Sudershan, Vinay, Sandeep, and Guyer Hall residents who always have accorded their full co-operation and well wishes during this journey. I am fortunate to have friends like Kapil, Pawan, Brijesh, Savita, Divya, Veenu and Vipin in my life. Their funny quotes made me laugh and forget the failures.

I would like to thank Mr. Murugan for his unconditional help during the field trip. I am extremely indebted to research scholars of Department of Microbiology, South Campus for their unconditional support and friendship specially Mr. Rishi. I am deeply inspired by his enthusiastic approach towards research.

The award of JRF and SRF by the University Grants Commission and Department of Science and Technology, Government of India, New Delhi is highly appreciated. It is an unintentional omission if there is my instance of failure to give proper credit. At last but not the least, I bow in reverence to the almighty the omnipotent and omnipresent for blessing me with enough strength and zeal to complete this work.

(Savindra Kumar)
