This chapter mainly discusses about the research work and publications done in national and international journals. This chapter elaborately discusses about the author's achievements in the field of medical research in internationally and nationally indexed journals. In today’s world the international scientific community keeps up to date with all the new scientific developments through scientific articles, which are published in esteemed scientific journals. The importance of these scientific articles and the scientific research is that, they evaluate each article in great detail, according to very strict criteria, by a minimum of 2 or 3 specialist scientists/professors from around the world, prior to any publications. This process ensures that every article is unique and makes a significant contribution to knowledge of the scientific community.

The publication details in the areas of research are as follows:

**Experimental and Clinical Diabetes:**

Miscellaneous:

**BMJ Case Reports** 2012; bcr-2012-006226. (Published), (PUBMED).

9. Snehil Dixit, M.P.T (PhD), Arun Maiya PhD, Shashikiran Umakanth M.D., Shirish Borkar MCH. The Photobiomodulation by low level laser therapy following median
sternotomy dehiscence in a diabetic individual. **Indian Journal of Palliative Care.**

Year: 2013, Volume: 19, Issue: 1, Page: 71-75 (Published), (PUBMED).

**Manuscript under Review:**

11. Postural control in individuals with Peripheral Neuropathy following Diabetes in India. **Indian Journal of Medical Sciences.** Ms. No.: IJMS_567_12 (In press).
