LIST OF FIGURES

Fig 4.1: Effect of grain molds on seed germination, shoot and root length 67
Fig 4.2: Effect of plant extracts on growth of *Alternaria alternata* 70
Fig 4.3: Effect of plant extracts on growth of *Fusarium oxysporum* 73
Fig 4.4: Effect of plant extracts on growth of *Colletotrichum graminicola* 75
Fig 4.5: Effect of plant extracts on growth of *Fusarium moniliforme* 77
Fig 4.6: Effect of plant extracts on growth of *Macrophomina phaseolina* 78
Fig 4.7: *In vitro* screening of antagonists against *Macrophomina phaseolina* by dual culture method 80
Fig 4.8: *In vitro* screening of antagonists against *Macrophomina phaseolina* by pathogen at centre method 82
Fig 4.9: *In vitro* screening of antagonists against *Macrophomina phaseolina* by pathogen at periphery method 84
Fig 4.10: *In vitro* screening of antagonists against *Fusarium moniliforme* by dual culture method 85
Fig 4.11: *In vitro* screening of antagonists against *Fusarium moniliforme* by pathogen at centre method 87
Fig 4.12: *In vitro* screening of antagonists against *Fusarium moniliforme* by pathogen at periphery method 88
Fig 4.13: *In vitro* screening of antagonists against *Colletotrichum graminicola* by dual culture method 90
Fig 4.14: *In vitro* screening of antagonists against *Colletotrichum graminicola* by pathogen at centre method 91
Fig 4.15: *In vitro* screening of antagonists against *Colletotrichum graminicola* by pathogen at periphery method 93
Fig 4.16: *In vitro* screening of antagonists against *Alternaria alternata* by dual culture method 94
Fig 4.17: *In vitro* screening of antagonists against *Alternaria alternata* by pathogen at centre method 96
Fig 4.18: *In vitro* screening of antagonists against *Alternaria alternata* by pathogen at periphery method 97
Fig 4.19: *In vitro* screening of antagonists against *Fusarium oxysporum* by dual culture method

Fig 4.20: *In vitro* screening of antagonists against *Fusarium oxysporum* by pathogen at centre method

Fig 4.21: *In vitro* screening of antagonists against *Fusarium oxysporum* by pathogen at periphery method

Fig 4.22: *In vitro* screening of fungicides against *Alternaria alternata*

Fig 4.23: *In vitro* screening of fungicides against *Fusarium oxysporum*

Fig 4.24: *In vitro* screening of fungicides against *Colletotrichum graminicola*

Fig 4.25: *In vitro* screening of fungicides against *Fusarium moniliforme*

Fig 4.26: *In vitro* screening of fungicides against *Macrophomina phaseolina*
