In the completion of this study, I feel fortunate enough to have received an overwhelming assistance, support, guidance, comments and co-operation from various quarters and it is now my moral obligation to acknowledge with gratitude all of them.

At the outset, I must express all praise to "Almighty Allah" who has cherished my heart and soul and has bestowed His mercy upon me by providing favourable conditions and congenial environment for completion of this study in time. His mercy was a sustaining force in my endeavour. With these words, I bow before Him, express the feelings of my heart and seek His bounty.

I owe a deep sense of gratitude and obligation to my esteemed guide and supervisor Prof. Mohi-ud-din Sangmi, Dean, Faculty of Commerce and Management Studies, University of Kashmir, Srinagar whose able and constructive guidance, constant encouragement, continuous patience, moral support and keen personal interest have been quite instrumental in making the completion of this study possible. It is pertinent to mention here that without his inspired co-operation, commendable hard work and sincere pains, the completion of this study would not have been possible. For his friendly behaviour and attitude, I acknowledge my great indebtedness to him.

I owe a special debt of gratitude to Prof. Khurshid Ahmad Bhat, Head, Department of Commerce, University of Kashmir, Srinagar for his constant help at different stages during the course of the study.

I am deeply thankful to all the faculty members of the Department of Commerce, University of Kashmir, Srinagar for their valuable comments and constructive criticism so generously offered by them from time to time. Special thanks are also due to the members on the non-teaching staff of the Department of Commerce for their help at various points of time during the course of study.

Among the scores of other people who deserve my sincere thanks and gratitude for their co-operation and encouragement, Prof. (Dr.) G. M. Utoo, Prof. (Dr.) S. G. Sarwar, Prof. Abdul Rashid Bhat (Retired Principals, Islamia College of Science and Commerce, Srinagar) and the present Principal Prof. (Dr.) Mohammad Saleem Khan, merit a special mention.

I must also place on record my appreciation for my colleagues in the Department of Commerce, The Islamia College, Srinagar, particularly for Dr. Mehraj-u-Din Shah, Mr. Taroq Ahmad Ganai, Dr. Sona-ullah Dar and Dr. Manzoor Ahmad Shah, who besides their valuable suggestions, guidance and encouragement, would always inquire about the pace of my research work.

Dr. N. A. Shah my revered teacher and colleague presently Head, P.G. Department of Management Studies (MBA), The Islamia College of Science and
Commerce, Srinagar deserves special thanks for his constant and invaluable moral support.

Truly speaking, I would have abandoned this project had it not been for the direction, guidance, assistance, support and un-stinted help from Dr. Shamim Ahmad Wani (KAS), CTO, Department of Commercial Taxation, Srinagar.

It is difficult for me to express in words the gratitude I owe to Khawaja Bashir Ahmad (IAS) Commissioner Commercial Taxation, Mr. B. L. Koul and Mr. M. L. Koul (Additional Commissioners), Mr. Khazir Mohammad Wani (Ex-Commissioner Sales Tax and present Secretary/Commissioner School Education), Mr. Mohammad Qasim Wani (KAS) ETO, Department of Excise Taxation and Mr. Firdous A. Mohammad (Advocate and VAT Consultant) who provided me their moral and intellectual support during the period of field survey.

I am highly thankful to the library staff of National Institute of Public Finance and Policy (NIPFP) New Delhi, Jawaharlal Nehru University, New Delhi, Indian Institute of Public Administration (IIPA) New Delhi, Allama Iqbal Library, University of Kashmir, Institute of Management and Public Administration (IMPA), Srinagar and the library staff of the Islamia College of Science and Commerce, Srinagar for providing excellent assistance.

I would also like to acknowledge my indebtedness to all those authors of books, articles and research papers whose writings guided me to pursue the programme.

Unfailing blessings, affection and encouragement of my family are irredeemable debt I owe. A thank is indeed a small word for my wife for giving her constant encouragement, support and providing a congenial atmosphere which I needed the most.

It would be a moral dereliction of duty on my part if I fail to make a special mention of exemplary patience and co-operation demonstrated by the subjects of enquiry (respondents) during the course of field survey.

I cannot afford to forget the guidance and assistance provided by Dr. Tariq Rashid Jan (Lecturer), Department of Statistics, The University of Kashmir in the analysis of data used in the study.

I also record my profound appreciation for the keen interest and strenuous efforts put in by Mr. Javeed Ahmad Bhat of Universal Computers, Sadurbal, Srinagar and Mr. Musaffar Ahmad Dar (Department of MBA, Islamia College, Srinagar) for providing all possible facilities for data processing, computer type setting and composing and bringing out the work of high quality. I am sincerely grateful to them for their outstanding contribution.
