ACKNOWLEDGEMENTS

I am really filled with a profound sense of gratitude for the valuable and tireless guidance of Dr. (Mrs.) Shakti Rais Ahmed, Senior Fellow, National Institute of Educational Planning and Administration, New Delhi and Dr. A.R. Shah, Assistant Professor, Department of Chemistry, Regional Engineering College, Srinagar.

I owe debt of gratitude to Dr. (Mrs.) N. Shali, Head of the Department of Microbiology, Government Medical College, Srinagar for her valuable guidance in conducting some experiments.

I thank Dr. T.A. Kanth, Department of Geography, University of Kashmir, for his valuable suggestions and useful discussions.

I express my sincere thanks to Dr. D. Chakarborty, Head, A.C.M.S., Indian Institute of Technology, Kanpur for extending his unreserved co-operation in providing laboratory facilities for X-ray diffraction studies.
I express my gratitude to the Director University Service Instrumentation Centre, University of Kashmir, for providing the necessary facilities for the atomic absorption analysis of water and particulate matter. Mr. Ali Mohd. of the same centre deserves special thanks.

My grateful thanks are due to the authorities of Regional Engineering College, Srinagar for providing me the financial assistance over the years I devoted to the completion of the assignment. Thanks are also due to them for providing me with laboratory and library facilities.

The library facilities provided by Indian Institute of Technology, New Delhi, Jawahar Lal Nehru University, New Delhi and Indian Institute of Technology, Kanpur are gratefully acknowledged.

I will be failing in my duties if I do not express my gratefulness to Prof. Ram Murti, Head of the Chemistry Department for his constant encouragement and valuable suggestions.
To all my friends and colleagues, and to whomsoever it is due, I extend my thanks for co-operating with me in several capacities directly or indirectly for the completion of this work. Dr. Savita Harkar deserves special mention.

I am sure it will not be impertinent to express my gratitude to my parents and younger sister, for having bestowed upon me their blessings and goodwill in the completion of this assignment.

I do not find words to express my deep sense of gratitude to Prof. (Dr.) O. N. Wakhlu, Principal, Regional Engineering College, Srinagar for his keen interest in this work and for many useful suggestions. But for his kindness, constant encouragement and liberal grant of funds, the document would not have seen the light of the day.

Thanks are also due to Mr. P. L. Sapru, Personnel Department, Regional Engineering College, Srinagar for neatly typing the manuscript.
