I express my profound gratitude to my venerable and distinguished guide, Dr. Mohammad Iqbal Mattoo, Reader, Maulana Azad National Urdu University, Hyderabad (CTE Srinagar), under whose worth-full guidance, I was in a position to complete this study. I am very grateful to him for his elucidatory, reformative, healthy and valuable criticism and warm feelings.

The Investigator is also indebted to Prof. Dr. G. M. Malik, Dean and Head, Faculty of Education, University of Kashmir, for providing me all types of facilities and cooperation for the total satisfactory completion of this study.

The Investigator is highly grateful to Prof. A. R. Rather, Head, Department of Psychology, whose suggestions helped me in the completion of this piece of research. I am equally thankful to Prof. N. A. Nadeem, for his continuous encouragement during the course of study. Dr. Mehmood Ahmad Khan, Dr. Nighat Basu, Dr. M. Y. Ganaie, and Dr. Tasleem Jan, Department of Education, deserve my special mention for their timely help.

I owe a debt to Director, Phoenix Institute of Teaching and Research, Srinagar, who provided me valuable support for the review of literature and data analyses, utilised in present study and whose catalytic efforts and cooperation provided a momentum to my work.

I owe my thanks to all the staff members of the departmental library and central library for rendering proper help at all occasions. Thanks are also due to all clerical staff of Department of Education, especially Ms. Rafiqa and Mohd Abaas, for their timely cooperation. I am also grateful to Mr. Riyaz from the Department of Law for his help during data compilation.

Mr. Mohd Idrees Zaroo from Phoenix Documentation Centre, Nowhatta, is acknowledged for taking serious efforts while typing this thesis.

It is my obligation to pay my gratitude to my parents, brothers and sisters without whose blessings and keen interest it was not possible to complete this thesis.

Thanks are also due to all the respondents (sample Subjects) for their cooperation and keen interest shown during the collection of data.
