ACKNOWLEDGEMENT

I engaged myself in the present piece of work with the name who has been the most beneficent and benevolent. He has been quite merciful and has given me much more than I deserve. I, at this very moment, bow my head in His honour and reverence.

I am grateful to Dr. Jawed Ahmad, Reader & Head in P. G. Dept. of Psychology, Shibli National College for providing encouragements and guidance to complete this work in the unexplored field of Youth Activism of College Students in relation to some Personality Factors, Personal Stress and Reaction to Frustration.

I am thankful to Dr. Ramji Srivastava, Ex-Head of the Department of Psychology, Shibli National P.G. College, Azamgarh and other teachers of the Department for their direct and indirect help during the work.

I would be failing in my duties if I do not express my thanks to my colleagues and friends for their help and encouragement during the work.

I take pride in acknowledging the moral support of Mr. R. P. Singh, Deputy Director Social Welfare Department, Mr. Gandhi Azad Ex-M.P. Rajya Sabha, Mr. Akhlaque Ahmad and Mr. Azad Arimardan. They never hesitated in extending their co-operation whenever I was in need.

My mother, Mrs. Nayeem Fatima has been a constant source of inspiration to me. Besides the encouragement, her invaluable pieces of advice lent aesthetic pleasure in my research work.

How can I forget my father, Late Mohd. Kamal Khan sb. and my grandfather Late Hafiz Idrees sb. for their constructive suggestions and unfailing motivating words received from them at some critical junctures of life where some psychological support was more valuable than any amount of money. Words are not adequate to express my sincerest sense of gratitude to them.
It is a moment to cheer my wife Mrs. Bushra Khanam who infact has borne the real brunt of my venture. She has taken every pain to get the work finished at the earliest. I owe a special and unaccounted debt to her, the actual moral source and support for this research work. In the end how can I forget my daughter Rushda who innocently and unconsciously made me devote my time to the thesis rather than to her personal care, which she really deserves at this stage of infancy.

I am indebted to my brothers, Mr. Abdul Qayyum Khan and Abdul Samad Khan and my sister Zeena Kamal for their constant help and unconditional support during the work.

I will be failing in my duty if I forget to thank my senior research scholar Dr Mohd. Mobin Ashraf for offering help in every possible way. Words really fail to express my feelings for his contribution in this endeavor.

I am thankful to teachers and Head of the institutions from where I have taken data for my research work. I am also thankful to the students who serve as respondents in this study for their sincere co-operations.

I am also thankful to Mr. Qamar Abbasi for his careful and pain staking composing efforts of my manuscripts.

Abdul Ahad
