Acknowledgement

Research is never the outcome of single individual's talent or efforts. I have seen and experienced the countless blessing showered on me by my parents, family members, teachers, friends and all my well-wishers, knowing the God's hand is there, always guiding and leading me to greater heights. It provides me pleasure to convey my gratitude to all those who have directly or indirectly contributed to make this work a grand success. I must make special mention of some of the personalities and acknowledge my sincere indebtedness to them.

I express my deep sense of indebtedness and gratitude to my research guide Dr. (Prof.) Girish K Jani, M. Pharm., Ph.D., for his advice and guidance during the course of the research programme. Inspite of his busy academic work and commitments as Principal and Professor and other administrative responsibilities, Dr. Jani, has patiently and critically gone through the manuscript. His constructive criticism has helped me in presenting the thesis in its present form. To work under the guidance of such an eminent person has been a great and inexplicable experience, which will go a long way down my memory lane in my life. My heartily thanks go to him.

I would like to remember my alma mater – L M College of Pharmacy, which has provided me a right platform for moulding my career in pharmacy profession. Sincerely, from the bottom of my heart, I express my gratitude and thanks to Dr. M C Gohel, Principal, L M College of Pharmacy, Ahmedabad, for extending all the facilities, valuable support and suggestions during the studies of B. Pharm., M.Pharm., and Ph. D work at this college.

I would like to thank Mr. H B Nanavati, Mrs. Bhavna A Desai, Dr. R K Parikh, Dr. B N Suhagia, Dr. (Mrs.) Y D Shah, Mr. I S Rathod, Mr. D D Bhalara and Dr. M T Chhabaria for their constant encouragement and timely support.

Words are an inadequate medium to express my deep sense of gratitude to Dr. Dhiren P Shah, for their keen interest, propelling inspiration, informative and
critical discussions, valuable suggestions and directions, selfless support and persistent encouragement throughout this investigation.

Finally the author wishes to offer sincere gratitude and apologies to respected parents, and family members – wife Anila beloved sons - Pathik and Hiteshi, Daughter-in-Law Dr. Rinku Shah, for patiently enduring certain duties lapses and difficulties during the period of the research work.

My sincere thanks are due to the various investigators and research pharmacist whose research works helped me a lot in setting the direction and contents of my present research work.

Kirit R Shah
