Acknowledgement

First of all I thank “The Creator of all creations” who gave me courage to complete this task. I am highly indebted to my Supervisor Prof. Azra Nahaid Kamili, Director, Centre of Research for Development and Head, Department of Environmental Science, University of Kashmir, for guidance, recurrent encouragement, moral support, critical assessment and for providing me all essential facilities.

I have no words to express sincere gratitude to my co-supervisor Prof. A. M. Shah, former Dean Faculty of Science and Director, Centre of Research for Development, University of Kashmir for his inspirations, encouragement and healthy criticism.

Thanks are also due to Prof. A. R. Yousuf, Dean Academic Affairs, Dean Faculty of Biological Sciences and former Director, C.O.R.D. for providing me all necessary facilities throughout the research programme in the centre.

Special thanks are due to Prof. Ashok Pandit and Prof. G. A. Bhat, faculty members in C.O.R.D. for their encouragement and valuable suggestions throughout the research programme.

I am highly thankful to Ms. Sumaira Tayub (STA, Tissue Culture Lab), Mr. Hashim Chisti (JTA) and Mr. Javaid Ahmad (JTA) for their sincere help, suggestions and cooperation especially in maintaining and monitoring discipline in the Lab.

Special thanks are also due to my colleagues, Anees Fatima, Rumaisa Qadri and Javaid Parray for their cooperation and sincere help from beginning to the end of the research work.

Thanks are also due to my other colleagues in Tissue Culture namely
Fayaz Ahmad Shah, Shugufta Parveen, and Rehana Hamid for their constant cooperation. Special thanks are due to my friend Syed Arshad Hussain for his valuable suggestions and for giving me a boost throughout research programme.

I must thank the authorities in the Department of Higher Education, Government of Jammu and Kashmir, for granting me official permission for the research work. Dr. Mohamad Ashraf, former Head of the Department of Botany in Amar Singh College and now Principal Degree College Beerwah, deserves special thanks for his insinuations, encouragement and stimulating suggestions at every step, especially in the use of different computer softwares.

I have no words to express my thanks to Prof. G.M. Dar and Prof. Shamshad Mian former Principals of Amar Singh College for relieving me officially from the college and for permitting me to complete three spells of my residency period in the university campus.

Thanks are also due to staff members in the office of C.O.R.D. for sincere help and cooperation throughout the research programme.

I place on record that without the help of my ex-student Imran Hussain, Lecturer in Statistics and my friend Dr. Bilal Senior Assistant Professor and Head, Department of Statistics, Amar Singh College Srinagar, the hard task of applying ANOVA test would not have been possible. The step by step explanation of Analysis of Variance by Dr. Bilal will always be remembered.

I dedicate this thesis to my mother and father whose memories, when evoked, always fill me with a radiant smile.

I also place it on record that without the cooperation and support of my beloved wife Shabnam, her affectionate care and sincere help, this thesis would not have taken its final shape.

(Wilayat Rizvi)
