Word of Gratitude

It is a great feeling that finally I am being provided with an opportunity to pen down something that I wanted to do any time of my life ever since I got introduced to my esteemed teacher and guide, Prof. Musadiq Amin Sahaf, Professor, The Business School, and University of Kashmir. It has been possible only because of his unending and relentless efforts that I have been able to see this project through. He has always walked an extra mile just to ensure that I carry out the study in its real sense. Much to my discomfort it has taken me more than usual time to complete the study, but in the end much to my pleasure the study has been worth, as far as the result of the study is concerned, thanks to Prof Musadiq A. Sahaf. His eagle’s eye has caught me many a times on the wrong foot, taught me the right; thus shaping my future for the years to come.
